Short subscription to General Provident Fund—Recovery of—

OFFICIAL MEMORANDUM

No. FD 269 PPF 71, BANGALORE, DATED THE 11TH MAY 1972.

According to the provisions of rule 13(3) of the Mysore General Provident Fund Rules, 1957, if a Government servant fails to subscribe with effect from the date on which he is required to join the Fund, the total amount due to the Fund on account of arrears of subscription shall with interest thereon at the rate provided in rule 14 be paid by the subscriber to the Fund and in default shall be recovered in instalments.

The recovery of arrears of subscription to the General Provident Fund Account is only to restore the position it would have attained had the subscription been credited to the account regularly as and when due. Interest in such cases also will have to be recovered.

The calculation and recovery of interest on arrears of subscription paid in one lump-sum presents no difficulty, but if recovery of arrears is made in instalments, calculation of the amount of additional interest on the diminishing amount of arrears gives rise to practical difficulties owing to the change in the rate of interest every year.

In order to tide over these difficulties it has been decided that the addtional amount of interest on the diminishing amount of arrears payable in monthly instalments should be calculated by determining the amount of interest which the subscriber concerned would have earned had he paid the arrears in one lump-sum and diminishing from it the amount of interest earned on the amount of arrear instalments paid from month to month till the complete recovery of the arrears.

The above mode of calculation and recovery of interest shall apply to cases in which arrears of subscription are yet to be recovered or are under recovery on the date of issue of this clarification.

Private Practice by Government Doctors—removal of ban—Abolition of Non-practising allowance

READ:—

1. Government Order No. HMA 183 MEG 71, dated 12th November 1971.
2. Letter No. JRO (4) 8464/69-70, dated 11th January 1972 and MDA 24/72-73 dated 18th/23rd May 1972 from the Director of Health and Family Planning Services, Bangalore.
3. Letter No. S. 14025/2/72-MA, dated 23rd February 1972 from the Government of India, Ministry of Health, New Delhi.

PREAMBLE:

Government by the Order No. HMA 183 MEG 71, dated 12th November 1971 read above prohibited private practice by Doctors in various categories working in the Health and Family Planning Services Department, in the Primary Health Centres, Dispensaries, Hospitals, Teaching Institutions *i.e.* Medical, Dental and Indian Medicine. However, excepting in the case of certain selected categories, neither non-practising allowance nor any other allowance was sanctioned to the doctors who were allowed private practice prior to the said order. Since the issue of the order dated 12th November 1971 there have been several representations from the public for the lifting of the ban. Further, in spite of the ban on private practice and payment of N.P.A., there have been instances of the doctors in receipt of N.P.A. indulging in private practice in violation of the orders of Government.

The existing order on prohibition of private practice by Government doctors and payment of N.P.A. was therefore, reviewed by Government keeping in view of the report of the Mysore Pay Commission according to which the clandestine practice by doctors is continuing despite payment of N.P.A. and it is not easily possible to prevent it either. The Commission has recommended that the only way to do away with this un-ethical practice is to abolish the N.P.A. and to allow the doctors to have private practice outside the hospital and outside the working hours without detriment to their official work.

ORDER No. HMA 183 MEG 71, BANGALORE, DATED THE 10TH JUNE 1972.

The Government after careful reconsideration of the entire question, direct that—

(1) the earlier order G.O. No. HMA 183 MEG 71, dated 12th November 1971 prohibiting private practice by all categories of doctors in Govt. service be and is hereby cancelled and doctors in all services and at all levels be permitted private practice ;

(2) the payment of non-prastising allowance to all doctors working in the clinical departments of the Mysore Health Services (Collegiate Branch) *i.e.*, Professors, Associate Professors, Readers/Assistant Professors/ Lecturers, etc., be stopped; and

(3) the permission for private practice referred to in clause (1) above is subject to the following conditions:—

(i) such practice or consultation should be wholly outside the working hours. During the working hours and in the Hospital hours, no private consultation on payment shall be permitted.

(ii) private practice even outside the Office/Hospital hours should not come in the way of the discharge of official work whether clinical or non-clinical.

ORDER No. HD 124 TTT 66, BANGALORE, DATED THE 6TH APRIL 1972.

In the circumstances stated by the Director of Information and Tourism and after detailed consideration of all the facts Government are pleased to direct that the Lalithamahal Building at Mysore be handed over to the Government of India (Department of Tourism) immediately subject to necessary lease deed being executed in due course as early as possible, on the basis of terms and conditions agreed to as broadly set out in the Annexure to this Order.

2. The Director of Information and Tourism will take necessary action in this behalf without delay on the following lines:

The available furniture and other similar articles in the Palace building should be divided into 3 lots, *viz.*,

(i) those which are in a good condition and are immediately usable ;

(ii) those which could be put to use after reconditioning and

(iii) those articles which have practically outlived their utility and can be considered almost useless.

The lots (i) and (ii) may be valued on the basis of book values, if available, or estimated at written-down values and handed over to the lessee who has agreed to pay the estimated cost to the State Government. The lot (iii) articles may be retained by the State Government (Department of Information and Tourism) for the disposal of which separate orders will issue. The available articles such as rare prints and engravings, etchings as well as valuable chandeliers within the main building should be properly inventoried and kept as a part of the main building to be returned to the Government at the expiry of the period of lease as agreed to by the Chairman, India Tourism Development Corporation. The India Tourism Development Corporation will however be at liberty to change the frames or to clean up the chandellers to improve their appearance. Since it is stated that the India Tourism Development Corporation do not find much use for the library

in the Palace consisting of around 12000 books, the entire library may be taken over by the State Government (Department of Information and Tourism) for the present at the time of handing over the charge of the building to the India Tourism Development Corporation. The Director of Information and Tourism may await further orders of Government as to whether these books should be transferred to the Secretariat Library or retained in his own Department.

Apart from the actual area forming the Lalithamahal premises, quite a bit of open land in the front and towards the sides of the Palace belonging to Government is available. Construction of building in this open area would permanently affect the landscape and the view of the Palace. Therefore, Government direct that these open areas should be kept open. A decision will be taken separately whether these open areas also be handed over to the India Tourism Development Corporation for being maintained as a garden as part of the landscape.

This issues with the concurrence of the Finance Department *vide* their U.O. Note No. 918 dated 1st April 1972.

By Order and in the name of the Governor of Mysore,

P. J. FERNANDES,
Commissioner for Home Affairs and
Secretary to Government,

Area Development Schemes—Payment of subsidy to the Mysore State Electricity Board representing the difference between the normal rate of interest charged by the Mysore State Co-operative Land Development Bank and the rate paid by the Mysore State Electricity Board

In G. O. No. DPC 19 CRC 71, dated 22nd March 1971 sanction was accorded to the payment of subsidy to the Mysore State Co-operative Land Development Bank Ltd., Bangalore, to the extent of difference between lending rate of 8½ per cent and the rate at which the Mysore State Electricity Board pays to the Bank on the deposit made with them, *i.e.*, 6 per cent subject to certain conditions.

The Registrar of Co-operative Societies in Mysore, Bangalore, in his letter No. C3/Scnemes/473/71-72, dated 30th September 1971 has reported that the concession sanctioned in the above cited G.O. was confined to Area Development schemes in Kolar, Tumkur and Chitradurga Districts only, as those schemes were under implementation at the time the proposals were sent to Government. He has further reported that the Agricultural Refinance Corporation has recently approved the Area Development Schemes in the Districts of Belgaum, Dharwar, Bangalore, Mysore, Mandya and Chickmagalur and they have been taken up for implementation by the Mysore State Co-operative Land Development Bank. He has recommended that on the analogy of the concession granted in respect of Tumkur, Kolar, and Chitradurga Districts sanction may be accorded to the concession being extended to the Districts of Belgaum, Dharwar, Bangalore, Mysore, Mandya and Chickmagalur.

The question was examined in consultation with the representative of the Mysore State Electricity Board. It has been decided—

(i) that the extension of the concession on the lines prepared by the Registrar of Co-operative Societies is not necessary;

(ii) that the Mysore State Electricity Board will pay interest at 8½ per cent to the Mysore State Co-operative Land Development Bank on the deposits made by it;

(iii) that the difference between the interest of 8½ per cent and 6 per cent will be subsidised by Government to the Board and

(iv) that the Electricity Board will claim subsidy in this behalf from Government as a separate item under the subsidy for overall losses for Rural Electrification Schemes which the Government has already agreed to make good.

ORDER No. DPC 144 CRC 71, BANGALORE, DATED THE 10TH/22ND MARCH 1972.

Necessary action will be taken by the Mysore State Electricity Board for the payment of increased rate of interest of 8½ per cent to the Mysore State Co-operative Land Development Bank in respect of deposits made by the Bank for energising the pumpsets under the Area Development Schemes. Sanction is accorded to the payment of the subsidy by Government to the Electricity Board equal to the difference between the rates of 8½ per cent and 6 per cent. The subsidy will be claimed by the Board from Government as a separate item under the subsidy for overall losses for Rural Electrification Schemes which the Government has already agreed to make good.

This order will apply to the deposits made hereafter by the Land Development Bank in respect of installation of pumpsets under the Area Development Scheme in all the Districts. To this extent, the orders issued in G. O. No. DPC 19 CRC 71, dated 22nd March 1971 stand modified.

This order issues with the concurrence of the PWD and FD *vide* their U. O. Notes No. OD42, dated 7th March 1972 and JSFD 2915, dated 8th March 1972, respectively.

Non-utilisation of Machinery, equipment, etc.

OFFICIAL MEMORANDUM

No. FD 6 BPA 72, BANGALORE, DATED THE 19TH JUNE 1972.

In every Audit Report mention is made of machinery, equipment, etc., purchased by various departments and lying idle for various reasons. The Public Accounts Committee have taken serious notice of this para appearing in every Audit Report. The machinery, equipment, etc., is kept idle mainly due to the following reasons :—

(i) Delay in construction of Civil Works by the Public Works Department.
(ii) Non-availability of power.
(iii) Machinery purchased for meeting temporary needs and retaining them even after the temporary needs are over.
(iv) Machinery going out of order and remaining idle for want of repairs.
(v) Want of spare parts.
(vi) Purchase of unsuitable machinery and equipment.

(vii) Postponement of the implementation of the scheme for which machinery was purchased in advance.

(viii) Lack of work suited to the machinery.

(ix) Dearth of trained operators to work the machines.

(x) Other miscellaneous reasons.

After examining several cases, the Public Accounts Committee have observed that machinery and equipment remain unutilised due to want of proper assessment of the requirements of machine and lack of proper planning in procuring the equipments, constructing necessary buildings for erecting them and their proper maintenance after their commission. In their Sixth Report (Fourth Assembly) the Public Accounts Committee have made the following observations/recommendations.

(i) The difficulty seems to be want of proper co-ordination between the administrative department and the Public Works Department in selecting suitable sites and fixing up suitable contractors for construction of buildings.

(ii) The Public Works Department with its huge organisation, should not find it difficult to provide the necessary skill and personnel to construct the buildings and erect the machinery in time. The Committee hope that delay in future at least will be avoided by the Public Works Department for providing necessary buildings to house the machinery purchased at huge cost from public funds.

(iii) The Committee also suggest that whenever equipments can be procured indigenously, their purchase may be planned after the necessary buildings are ready so that unnecessary locking up of Public funds may be avoided by their purchase long before they can be put to use and also risk of loss avoided by their being kept idle or becoming obsolescent by long non-use.

These observations/recommendations made by the Public Accounts Committee should be kept in view by the officers while placing orders for supply of machinery, equipment, etc.

2. The Audit has also pointed out that in some cases packages containing the machinery received were not even opened for considerable length of time and the contents checked. The suppliers give guarantee regarding satisfactory working of the machinery upto a specified time. If the installation of the machinery is delayed for long, the possibility of the suppliers disclaiming responsibility for the good working condition of the machinery cannot be ruled out.

3. In the light of the recommendations made by the Public Accounts Committee the following instructions are issued for the guidance of officers :—

(i) All Officers are requested to see that while placing orders for supply of machinery and equipment suitable building for the erection of the machinery is/or will be made available by the time the machinery is due for delivery.

(ii) If the working of the machinery requires power, it should be seen that power is/will be available.

(iii) If machinery is purchased for meeting temporary need, its disposal should be considered immediately after that need is over. The machinery should not be retained unnecessarily.

(iv) If the machines go out of order and require replacement of some parts, steps should be taken to procure the spare parts needed and the machines put into working condition as early as possible.

(v) If the machines are beyond repair or if it is not economical to incur heavy expenditure on such repair considering their further use their disposal should be considered. Such machines should not be allowed to lie idle for years together.

(vi) Machinery should not be purchased unless it is suitable for the purpose. Instances have come to the notice of the Public Accounts Committee that one department wanted to purchase equipment from a foreign country as it was available against rupee payment. But the machinery of the type required by that department was not manufactured by that foreign country. Instead they offered machinery of higher capacity which the department did not want. In order not to embarass the foreign Government, the department was forced to take the machines which it could not make use of. The machinery purchased at huge cost is lying idle. The departments should avoid purchasing machinery which is not suitable for their purpose simply because it is available in the market or from a foreign country against rupee payment. Purchase of machinery in a hurry to avoid lapse of funds and keep them idle for years will be viewed seriously.

(vii) If the operation of machinery requires trained hands, steps should be taken to recruit trained hands, if available, or get the departmental persons (if suitable) trained or recruit persons and get them trained. The machinery should not be kept idle for want of trained personnel.

4. It is hoped these intructions, if observed scrupulously will go a long way in reducing instances of idle machinery and avoid adverse comments from Audit and the Public Accounts Committee.

Joint Secretary to Government,
Finance Department.

Sir,

Deduction of Income-tax at source—Section 194C of the Income-tax Act, 1961—Deduction from payments to Contractors and Sub-contractors—Instructions regarding.

I am to enclose herewith a copy of Circular No. 86 No. F. 275/9/72—ITJ dated 29th May 1972 from the Government of India, Ministry of Finance

(Department of Revenue and Insurance) New Delhi on the above subject for information and necessary action in the matter.

2. The instructions contained in the Circular may please be implemented keeping in view judgment of the Supreme Court noted in the Circular. Some of the salient points are noted below :

(i) It has to be noted that the Income-tax is deductible in cases where 'works contracts' and 'labour contracts' are concerned and not in respect of contracts for sale of goods. The deduction of tax has to be done only in respect of contracts where the payment is made by the Central Government, State Government or a local authority or a Corporation established by or under a Central, State or Provincial Act or by a Company, and the Contractor should be a person resident in India.

(ii) Contracts for rendering professional services by lawyers, physicians, surgeons, engineers, accountants, architects, consultants, etc., cannot be termed as contracts for purposes of tax.

(iii) The deduction of tax will be made at the time of payment in cash or by cheque or draft or at the time of credit of the sum to the account of the contractor.

(iv) The question whether deduction of Income-tax has to be from the gross amount due or net amount has to be deducted depending upon the terms of the contract and depending upon the services rendered and the material supplied. If the material is supplied by Government or other authority and the contractor supplies only the labour and he gets only the Labour charges, tax is to be deducted only from the amount actually payable to him for labour.

(v) The rate of tax will be 2% of the gross payment or as the case may be, the net amount, depending upon the terms of the contract as per Clause (v) in the Circular enclosed.

(vi) No deduction is required to be made if the amount does not exceed Rs.5000/ or where the payment is made before 1st June 1972. It should however be noted that the tax under Section 194C has to be made in cases where the payment is made after 31st May 1972 even though the contract in respect of which the payment is made has been entered into on or before that date.

3. All the instructions in the Circular may also please be noted for guidance and necessary action. Copies of further instructions to be received in this connection will also be sent to you on receipt here.

4. Copies of the Instructions issued to all the Disbursing Officers in Divisions and Sub-Divisions, etc., may be sent to this office.

Yours faithfully,

Circular No. 86.

F. No. 275/9/72-ITJ

GOVERNMENT OF INDIA

MINISTRY OF FINANCE

(Department of Revenue and Insurance)

NEW DELHI, THE 29TH MAY 1972

FROM

Shri K. R. Raghavan,
Deputy Secretary to the Government of India.

To

All State Governments.

Sir,

Deduction of Income-tax at source—Section 194 C of the Income-tax Act, 1961–Deduction from payments to contractors and sub-contractors–Instructions regarding.

The Finance Act, 1972 has introduced a new Section 194 C in the Income-tax Act, 1961 with a view to providing for deduction of income-tax at source from income comprised in payments made to contractors and sub-contractors in certain cases. The broad effect of the new provision is that a person responsible for paying any sum to a resident contractor *for carrying out any work or supplying labour for carrying out any work* in pursuance of a contract with the Central Government, State Government, local authority, statutory corporation or a company will be required to deduct income-tax at the rate of 2 per cent from any such sum paid after 31st May, 1972. Similarly, a contractor, not being an individual or a Hindu undivided family, will, in certain cases, be required to deduct tax at the rate of 1 per cent from any payment made by him to a resident sub-contractor after that date. The substance of the new provisions is explained hereunder :–

(i) *In the case of contractors*, deduction of income-tax the new provision will be made only where the payment is made by the Central Government or a State Government or a local authority or a corporation established by or under a Central, State or Provincial Act or by a company (such authority, corporation or company being hereinafter referred to as 'specified person') and the Contractor is a person resident in India. The deduction of Income-tax at source from payments made to non-resident contractors will continue to be governed by the existing provision in section 195 of the Income-tax Act, 1961.

(ii) The deduction of Income-tax will be made from *sums paid for carrying out any work or for supplying labour for carrying out any work.* In other words, the new provision will apply only in relation to 'works contracts' and 'labour contracts' and will not cover contracts for sale of goods.

Since contracts for the construction of buildings or dams or laying of roads and air-fields or railway lines or erection or installation of plant and machinery are in the nature of contracts for work and labour, Income-tax will have to be deducted from payments made in respect of such contracts. Similarly, contracts granted for processing of goods supplied by Government or any other specified person, where the ownership of such goods remains at all times with the Government or such person, will also fall within the purview of the new section. The same position will obtain in respect of contracts for fabrication of sea and river crafts where materials are supplied by the Government or any other

specified person and the fabrication work is done by a contractor. Where, however, the contractor undertakes to supply any sea or river crafts fabricated according to the specifications given by Government or any other specified person and the property in such sea and river crafts passes to the Government or such person only after such crafts are delivered, the contract will be a contract for sale and, as such, outside the purview of the new provision.

[In the State of Punjab *vs.* Associated Hotels of India Ltd., their Lordships of the Supreme Court observed that where the principal objective of work undertaken by the payee of the price is not the transfer of a chattel, *qua* chattel, the contract is of work and labour. The test is whether or not the work and labour bestowed end in anything that can properly become the subject of sale; neither the ownership of the materials nor the value of skill and labour as compared with the value of the materials nor the value of skill and labour as compared with the value of the materials is conclusive although such matters may be taken into consideration in determining, in the circumstances of a particular case, whether the contract is, in substance, one of work and labour or one for the sale of a chattel. A building contract or a contract under which a movable is fixed to another chattel or on the land, where the intention plainly is not to sell the article but to improve the land or the other chattel, and the consideration is not for the transfer of the chattel, but for the labour and work done and the materials furnished, the contract will be one of work and labour.

In case of doubt whether a particular contract is a contract for work and labour or for sale the matter should be decided in the light of the principles laid down by the Supreme Court in the above case.]

(iii) Contracts for rendering professional services by lawyers, physicians, surgeons, engineers, accountants, architects, consultants, etc. can also not be regarded as contracts "for carrying out any work" and, accordingly, no deduction of income-tax will be made from payments relating to such contracts.

(iv) The deduction of income-tax will be made at the time of credit of the sum to the account of the contractor, or at the time of payment thereof in cash or by issue of a cheque or draft or by any other mode, whichever is earlier.

(v) The question whether deduction under the new provision will be made with reference to gross payment due to the contractor or the net payment *i.e.* gross payment *minus* deductions, if any, on account of materials supplied by Government or other specified persons will have to be decided in the light of the terms of the particular contract and the conduct of the parties thereto. Where the contractor has undertaken to construct a building or a dam, and the Government or other specified person has undertaken to supply all or any of the materials necessary for the work at stipulated prices, the deduction will have to be related to the gross payment without excluding any adjustments on account of cost of materials. Where, however, the contractor has undertaken only to provide the labour for the work, the ownership of the materials supplied remaining at all times with the Government or other specified person, the sum payable to the contractor in respect of the contract will only be the amount paid for such labour or services and will thus not include the price of the materials supplied by the Government or other specified persons.

(vi) The rate of deduction of income-tax from payments made by the Government or other specified persons to any contractor will be 2 percent of the gross payment or, as the case may be, the net payment, depending on the terms of the contract, as explained in item (v) above.

(vii) No deduction will be required to be made if the consideration for the contract does not exceed Rs. 5,000 or where the payment is made before 1st June,

1972. In this connection, it should be noted that the deduction of tax under section 194C is required to be made in cases where the payment is made after 31st May, 1972 even though the contract in respect of which the payment is made has been entered into on or before that date.

(viii) Where a contractor, not being an individual or a Hindu undivided family, engaged for carrying out any work or for supplying labour for carrying out such work by the Central Government or a State Government, a local authority a corporation established under a Central, State or Provincial Act or a company has, in turn, engaged any sub-contractor (a) for carrying out the whole or any part of the work undertaken by the contractor, or (b) for the supply of labour to carry out such work, or (c) for supplying any labour which the contractor had undertaken to supply, he will be required to deduct income-tax at source from payment made to the sub-contractor at the rate of 1 per cent of such payment. The provisions governing payments to contractors as set forth at items (iv), (v) and (vii) will apply *mutatis mutandis* to payments made by contractors to sub-contractors.

2. Relevant forms etc., in relation to these provisions are being prescribed by rules. In the meanwhile, the following instructions may please be noted :—

(i) It is open to the contractor or the sub-contractor as the case may be, to make an application to the Income-tax Officer concerned and obtain from him a certificate authorising the payer to deduct tax at such lower rate or deduct no tax as may be appropriate to his case such certificate will be valid for the period specified therein unless it is cancelled by the Income-tax Officer earlier.

(ii) In view of the existing provision in Section 288 of the Income-tax Act, 1961, the amount of tax to be deducted at source should be rounded off to the nearest rupee by ignoring amounts less than fifty paise and increasing amounts of fifty paise or more to one rupee.

(iii) The tax deducted on behalf of the Government should be paid to the credit of the Central Government on the same day by book adjustment. In other cases, tax deducted should be paid to the credit of the Central Government within one week from the last day of the month in which the deduction is made.

Challans for paying tax into the Government account are obtainable from the Income-tax Officer concerned.

(iv) The persons responsible for making any payment to a contractor or a sub-contractor, as the case may be, should issue a certificate showing therein particulars of the payment, the amount of tax deducted at source and the date of credit, if any. Necessary forms in this regard are being prescribed by the Rules. In the meantime, the certificate may be issued in form appended herewith.

3. Further instructions will be communicated after relevant forms etc. are prescribed under the rules.

4. These instructions may please be brought to the notice of all disbursing officers and State undertakings under the control of the State Government.

K. R. RAGHAVAN,

157 Deputy Secretary to the Government of India.

IMPORTANT GOVERNMENT ORDERS

FINANCE SECRETARIAT

Sanction of Festival Advance to Government Employees on the pattern of Government of India.—

PREAMBLE.—

According to Article 288 of Mysore Financial Code, an advance of Rs. 120 or one month's basic pay whichever is less, is sanctioned to non-gazetted Government employees, drawing less than Rs. 500 p.m., to defray the expenses of important festivals, which is recoverable in 10 equal monthly instalments.

An embargo was imposed on the disbursement of advance, in G. O. No. FD 15 BUD 72, dated 1st March 1972. Subsequently Government relaxed the economy orders in respect of festival advances for 'Ugadi' 'Good Friday', 'Tamil New Year's Day' and 'Id-Milad'. The amount of festival advance to the employees of the Central Government is Rs. 100 or one month's pay whichever is less, and it is recoverable in 5 equal monthly instalments. On the State side however, the basic pay includes dearness pay if any, and the 'additional basic pay'. Instead of relaxing the economy orders for individual festivals it is desirable to change the sum admissible, as also, to regulate the recovery of instalments on par with those admissible to the Central Government employees.

ORDER No. FD 51 RFC 72, BANGALORE, DATED THE 4TH JULY, 1972.

Government are accordingly, pleased to direct that with effect from 15th July 1972, the festival advance to be sanctioned will be regulated as follows :—

(i) The amount of festival advance will be Rs. 100 or one month's basic pay, whichever is less (The term 'pay' includes Dearness Pay if any, and the additional basic pay).

(ii) The advance will be recovered in 5 (five) equal monthly instalments. In cases, however, where recovery in five instalments, results in conflict with the standing orders that the take-home pay should not be less than 50 percent of the total emoluments, then the number of instalments will be extended to a maximum of eight.

(iii) The advance is admissible only to non-gazetted Government servants in receipt of pay not exceeding Rs. 400 p.m.

(iv) The advance will be sanctioned for only one festival in a calendar year.

2. All other details regarding procedure etc. will remain the same as hitherto.

3. Necessary amendments to the provisions of Mysore Financial Code will be issued in due course.

3. Letter No. L & E (E) 16-1/72 (Mysore), dated 13th July 1972 from the Joint Secretary, Planning Commission addressed to the Chief Secretary to Government of Mysore.

Preamble :—

The problem of un-employment—both of the educated un-employed and the rural unemployed—has been engaging the attention of the State Government for quite some time past. For the past nearly three years, a number of measures have been initiated by the State Government to mitigate the problem of unemployment. Some of the major steps taken in this direction have been to train Engineering Graduates and Diploma Holders, render employment assistance to educated unemployed including Engineers, provide incentives for promoting self-employment among Engineers and I.T.I. Certificate Holders, assist unemployed Engineers to start small scale industrial units, award State contracts to unemployed engineers on a concessional basis, etc. Similarly, to amelicrate the conditions of the rural unemployed and under-employed many programmes are being implemented for the past nearly three years. The major programmes are : Drought-prone Areas Development Programme, Small Farmers Development Project, Marginal Farmers and Agricultural Labourers' Development Programme and Crash Scheme for Rural Employment. Government are aware that these measures are not adequate and greater efforts are called for in this direction.

The Government of India have also been reviewing this problem continuously. They had constituted an Expert Committee headed by Shri Bhagavati to size up the problem of unemployment and recommend suitable remedial measures. This Committee submitted an interim report to the Government of India in February 1972, recommending a number of employment oriented schemes.

The Government of India have made some special provision in their budget for 1972-73 for schemes designed to meet this problem. Out of this, a sum of Rs. 143 lakhs has been allocated to the Government of Mysore, *vide* reference (i) cited above. The State Government was requested to formulate special employment schemes, keeping in view the recommendations in the interim report of the Bhagwathi Committee. This amount was to be matched by an equal amount by the State. Under reference (ii) cited above, the project report on 'Special Employment Programmes, prepared by the State Government was sent to Government of India ; this Project embodied several schemes costing about Rs. 494.16 lakhs for a full year. Since the State was not in a position to provide the matching amount, the Government of India were also requested

to extend cent per cent assistance to this project. The State Government representatives discussed this project with the representatives of Government of India on 10th July 1972. In their letter, *vide* reference (iii) cited above, the Government of India have communicated their concurrence to this project with certain minor modifications. They have also indicated that it would not be possible for them to extend assistance beyond Rs. 143 lakhs during 1972-73.

Order No. PD 8 MPC 72, dated, Bangalore, 31st July 1972.

In the light of the foregoing, the Governor of Mysore is pleased to accord sanction for implementation of the following schemes with immediate effect at a total cost not exceeding Rs. 143 lakhs only (Rupees one hundred and forty-three lakhs only) during 1972-73.

SCHEME XXII

Improvements to Rural Roads

The programme approved under this scheme is to effect improvements, over a period of three years to 950 kilometres of existing rural roads at a total cost of Rs. 150 lakhs.

Construction of new rural roads should not be taken up under this scheme as the programme envisages only improving existing rural roads. Fifty kilometres of rural roads are to be covered in each of the 19 Districts of the State. In each District, two Taluks are to be selected for implementation of this programme on the basis of their backwardness in regard to rural communication and extent of P.W.D. rural roads available which require improvements. Taluks where the "drought prone area development programme" is in operation should not be selected under this programme. In Coorg District as all rural roads have been already handed over to Taluka Development Boards for maintenances, such of the roads which require improvements, may also be included.

Improvements to be effected to the selected roads are :—

(i) Formation width	..	Existing formation width with slight side improvements.
(ii) Carriage way	..	9' width with weather bound macadam surface consisting of 4" soiling and 3" metalling.
(iii) Cross-drainage works	..	5 Rft. per Km. in maidan areas and 8 Rft. per Km. in malnad areas.

After affecting the above improvements, these roads should be handed over to Taluka Development Boards for maintenance.

It must be ensured that labour (wages) component is at least 60 per cent of the expenditure incurred. The scheme is expected to create 10.00 lakh mandays of employment per annum for casual/agricultural labourers.

Approved expenditure on account of this scheme is Rs. 50.00 lakhs per annum. For the year 1972-73, a budget provision of Rs. 30.00 lakhs has been made and the scheme is to be implemented in a phased manner so that the expenditure during 1972-73 is limited to the provision made.

Considering all the factors, it was decided to issue the following instructions.

SOCIAL WELFARE SECRETARIAT

Determination of backward classes in the State for purposes of admission to educational institutions, aid, assistance, reservation of posts in the services under the State, etc.

ORDER No. SWD 81 SET 72, BANGALORE, DATED THE 8TH AUGUST 1972

Article 15 (4) of the Constitution authorises the State to make special provisions for the advancement of the socially and educationally backward classes of citizens or for the Scheduled Castes and the Scheduled Tribes.

Article 16 (4) of the Constitution authorises the State to make any provision for the reservation of appointments or posts in favour of any backward classes of citizens which, in the opinion of the State, is not adequately represented in the services under the State.

Article 46 of the Constitution enjoins upon the State to promote with special care the educational and economic interests of the weaker sections of the people and in particular of the Scheduled Castes and the Scheduled Tribes.

The Government of Mysore have in accordance with the Constitutional intendment issued from time to time, orders providing for reservation for the persons belonging to the Scheduled Castes and Scheduled Tribes and other backward classes in educational institutions, run or aided by the State and also for reservation of posts under the State.

The High Court of Mysore and the Supreme Court of India in certain cases arising before them have had occasions to consider some of these Government Orders. Some of the observations tend to indicate that the scheme evolved by adopting the said criteria has really not helped the genuine backward classes of citizens of the State, that it has given scope for abuse, manipulations, etc., and that the matter requires periodical review.

In order to effectively implement the Constitutional intendment and make available the benefits of the special provisions that may be made to the really backward classes of citizens so that their social and economic interests are promoted, it is considered necessary that the determination of the backward classes should be done on a scientific basis, adopting relevant and appropriate criteria. This involves collection of statistical data and a detailed enquiry into the matter.

For the aforesaid purpose it is necessary to constitute a High Level Commission to undertake a study of the whole question and make recommendations to the State Government.

Accordingly the Government of Mysore hereby appoint the Mysore Backward Classes Commission consisting of:—

(1) Sri L. G. Havanur	...	Chairman
(2) Sri Y. Ramachandra	....	Member
(3) Sri K. R. S. Naidu	....	Member
(4) Sri K. M. Naganna	....	Member
(5) Sri A. Masana Chetty	....	Member
(6) Sri Dharmasingh	....	Member
(7) Sri P. T. Habib	....	Member

The terms of reference for the Commission shall be as follows:—

(1) To suggest the criteria to be adopted for determining whether any classes of persons in the State other than the Scheduled Castes and the Scheduled Tribes may be treated as socially and educationally backward classes.

(2) To ivestigate into the living and working conditions of all such classes of persons with special reference to the difficulties under which they may be labouring and to make recommendation as to the special provisions which are necessary to be made by the Government for their advancement and for the promotion of their social, educational and economic interests generally.

(3) To make a list of all classes which may be regarded as backward classes in the State.

(4) To suggest what reservations should be made for such classes in the educational institutions maintained by the State for receiving aid out of the State funds.

(5) To suggest what other concessions like scholarships, etc, may be given to such classes by way of assistance.

(6) To determine to what extent such classes are represented in the services under the State and to recommend what reservations of posts in such services may be made for them.

(7) To generally advise the Government about the steps to be taken to ensure adequate safeguards for the backward classes of citizens in the State.

The Mysore Backward Classes Commission may—

(a) obtain such information as it may consider necessary or relevant for its purpose in such form and in such manner as it may think appropriate from the Central Government, the State Government and such other authorities, organisations or individuals as may in the opinion of the Commission, be of assistance to it;

(b) hold its sittings or the sittings of such sub-committees as may be appointed from amongst its own members at such times and at such places as may be determined by or under the authority of the Chairman; and

(c) visit or depute a Sub-Committee of it to visit such parts of the territory of the State of Mysore or any part of the territory of India as it may consider necessary or convenient. When the Commission or a Sub-Committee visits any part of the State it may co-opt not less than two persons residing in the district in which such place is situate as additional members of the Commission or the Sub-Committee, for the duration of such visits, one of such members being a woman, if possible.

The Mysore Backward Classes Commission is requested to present its final report to the State Government by 31st December, 1973.

As regards the allowances, etc., payable to the Chairman and other Members of the Commission and as regards the staff of the Commission, separate orders will issue.

Separate orders will also issue regarding appointment of a Secretary of the Commission.

By Order and in the name of the Governor of Mysore,

C. B. D'MELLO,

Transfer of Government Servants—Instructions.

OFFICIAL MEMORANDUM

No. FD 76 BUD 72, BANGALORE, DATED THE 5TH JULY 1972

According to the revised instructions issued in Official Memorandum No.GAD 2 IFR 72, dated 8th April 1972, the Heads of Departments are competent to sanction or order transfers of non-gazetted officials who have not completed the minimum period of two years service at a place. As a result of these orders it is felt that many transfers, though not in public interest, are likely to be effected.

2. Consequent on the revision in the rates of T.A. recently, the expenditure on T.A. during 1971-72 has risen considerably. If the present delegation of powers to the Heads of Departments is to be given effect to disregarding the need for economy in expenditure, it is likely to add to the worsening of the financial position of the State.

3. It is, therefore, directed that in the normal course transfers should not be ordered unless the official has completed four years service at a place. This will, however, not apply to cases of transfers due to promotion, retirement or reversion.

4. According to the Rules no T.A. is admissible in the case of transfers made at the request of the Government servants including Gazetted Government servants or mutual requests. The Heads of Departments are, therefore, instructed to ensure that in such cases of transfer at request or on mutual request no T.A. is allowed and that the rules are followed strictly and generally transfers within two years should be avoided and a four year period allowed to run unless it is necessary to transfer a Government employee in public interest or under very special circumstances.

(2) G.O. No. FD 15 BUD 72, dated 1st March 1972.

PREAMBLE:—

In Government Order dated 1st March 1972 it was directed that such of the Plan Schemes which are yet to be started should be postponed. The position has now been reviewed and it is necessary that there should be no slowing down of the tempo of developmental activities in the State. It has, therefore, been decided to modify the economy orders so far as Plan Schemes are concerned, so that essential works, staff, equipment, etc., necessary for implementation of the Plan schemes are not denied.

ORDER No. FD 85 BUD 72, BANGALORE, DATED THE 21ST JULY 1972.

Government direct that the ban imposed on starting of new Plan schemes in Government Order, dated 1st March 1972 be withdrawn, subject to the condition that:—

(i) the actual expenditure is limited to the provision in the Plan budget,

(ii) the approved Plan ceilings are strictly adhered to, and

(iii) individual schemes continue to receive scrutiny by the Finance Department before the expenditure is authorised, even where such schemes are contemplated in the Budget.

2. Subject to these conditions the restrictions imposed on purchase of furniture, equipment, tools and plant, sanction of establishment, sanction of loans, grants-in-aid, etc., *relating to the implementation of the State Plan Schemes are withdrawn.*

2. Government Order No. FD (I) 67 OAP 70, dated 26th March 1970.

PREAMBLE.—

As per Rule 5 of the Old-age pension rules issued in Government Order No. FD (Spl) 446 PEN 64 dated 15th December 1964 a person will be deemed to be a destitute for the grant of old age pension if he/she is aged 70 years or more. In the case of those who are incapacitated to earn a living due to blindness, leprosy, insanity, paralysis or loss of one or more limbs he/she should be of not less than 65 years of age. Revised procedure of accounting of Festival Advances (STATE) since 1st November 1970.

OFFICIAL MEMORANDUM

No. FD 10 RFC 72, BANGALORE, DATED THE 15TH JUNE 1972.

It has been brought to the notice of Government by the Accountant General, that despite detailed instructions issued to the Treasury Officers, the main lists of payment and subsidiary lists are being received in his Office in a defective manner with the result that the efforts made by the Audit Office to maintain the Festival Advance accounts in a correct manner are rendered ineffective. In order to overcome this drawback, it is directed that if the detailed heads noted in the 'Annexure' are incorporated in the cash account and lists of payments sent by the Treasuries to Audit Office, the necessity of preparing the main lists/schedules is avoided. It is enough if the Treasuries send the subsidiary lists/schedules (with vouchers and challans) relating to each Department agreeing the figures appearing under the Departmental heads in the list of payments/Cash Account.

It is also seen that the departmental officers while making cash credits of Festival Advance recoveries, do not furnish full particulars of Debits such as the Department and the name of office where drawn, Head of Account the month of drawal, etc. It is therefore, necessary that the drawing officers should furnish all the details in the festival advance credit challans in accordance with the instructions contained in OM No. FD 10 RFC 72, dated 2nd February 1972, and that these credit challans are passed through the concerned Treasury Officer before credit at the Agency Bank.

Payment of Demurrage charges due to delay in clearance of Imported Goods

OFFICIAL MEMORANDUM

No. FD 6 BPA 72, BANGALORE, DATED THE 21ST JUNE, 1972.

The Audit has pointed out payment of demurrage charges by certain departments due to inordinate delay in the clearance of goods which had arrived at the Indian port from foreign countries. The Public Accounts Committee in their Sixth Report (Fourth Assembly) have made the following observations in this respect.

"122. The Committee regret that having placed orders for the import of engines from abroad, the department had not familiarised itself with the procedure of processing import documents and clearance of goods promptly soon after their arrival in the country. The consequences of devaluation could have been anticipated and the department could have armed itself with sufficient Government authority in advance for making the requisite payments. Even after the arrival of the first consignment of engines in June 1966, the department began to experience difficulty. If it had put one officer specially for the job of processing import documents and clearing the consignments the delay could have been reduced and the extra cost to the Government minimised".

2. The delay in clearance of the goods is attributed generally to the departments not knowing the procedure, delay in the receipt of documents from the manufacturers, increase in cost necessitating revision of original sanction and provision of additional funds, difficulties in arranging transport from port to destination etc. Foreign goods are generally imported through the representatives of the foreign manufacturers in India. Direct import of goods by Government Departments are rare. In cases where the departments place orders directly with the foreign manufacturers they should familiarise themselves with procedure of processing import documents and clearance of goods through the customs and port authorities. They should also keep themselves in touch with the foreign manufacturers and should have an idea regarding the probable date of shipping of the machinery and their arrival at the Indian port. All preliminary arrangements such as provision of funds for payment to manufacturers, payment of customs duty, if payable, payments to be made to port authorities, transport arrangements from the port to destination etc., should be made well before the date of arrival of the machinery. Any delay in these matters may result in the detention of goods and consequential payment of demurrage. If the departments find it convenient, they may entrust the work to one officer who should be kept informed of all developments pertaining to the particular indent or indents. Whatever procedure the departments may follow, it should be seen that payment of demurrage charges is avoided.

N. S. BHARATH,
Joint Secretary to Government
Finance Department.

But a list of further sanctions should be sent to the Finance Department as on the 1st January 1973, immediately after that date as in the previous years.

5. Separate instructions will be issued in due course regarding preparation and submission of estimates in respect of Schemes relating to the final Year of the Fourth Five-Year Plan. In respect of the Schemes included in the Detailed Estimates of the Plan Schemes of the current year, but for which the break up of the lumpsum provisions under standard sub and detailed heads has not been furnished, details should be worked out invariably to facilitate giving similar details for 1973-74. Details of staff may also be worked out so that these may be included in Appendix 'B' Estimates.

6. The Heads of Department and Divisional Commissioners should forward only one set of consolidate Estimates in the prescribed printed forms *complete in all respects*, to the Finance Department. Special arrangements should be made well in advance for obtaining information from the subordinate officers. It should be noted that the work of consolidation of the estimates received from the subordinate officers after scrutiny is the responsibility of the Chief Controlling Authority who should see that no provision is omitted. Necessary instructions may be issued by the Chief Controlling Officers to the subordinate Estimating Officers under their control in this regard. Heads of Departments should issue strict instructions to their subordinate officers not to endorse copies of the estimates to the Finance Department direct, even for information.

7. The estimates received after the due dates will not be considered and the Departments will be responsible for omissions as a result of such belated proposals. In spite of repeated instructions, Departments have not been adhering to due dates and the attention of all Estimating Officers is drawn to the need for strict observance of the time-schedule.

8. A list of NEW ITEMS of expenditure has to be printed separately as an Appendix to the Budget Memorandum. Information for compiling this Appendix

was not, however furnished by the Departments in previous years in spite of instructions in that regard. For the Budget 1973-74, provisions proposed in the Budget Estimates for New Service items as defined in the Annexure I should be indicated in the form of a separate statement giving details of such items as under :—

(*a*) Additional staff (Item 1)	Details of staff and non-recurring.	Amount proposed in the Budget, Recurring on staff-Non-recurring.
(*b*) Grants and Contributions (Item 3)	Name of the Institution or Organisation.	Amount proposed.
(*c*) Works (Item 4)	Details of works costing more than Rs. 5 lakhs.	
(*d*) Committees (Item 5)	Name of the Committee, purpose and amount involved.	
(*e*) Revision of scales of pay (Item 6)	Details indicating Govt. Order and amount involved.	
(*f*) Loans and Advances. (Item 8)	Where individual amounts exceed Rs. 5 lakhs, details may be given.	

9. The Chief Engineers are requested to take action to forward the Public Works Estimates to the Finance Department through the Finance Officer and *Ex-Officio* Deputy Secretary to Government P.W. & Electricity Department *strictly within the due dates*. Proper instructions may be issued by them to the Officers under their control to furnish necessary data for the preparation and consolidation of the estimates. Delays have frequently occurred in the receipt of these estimates and this has resulted in very little time being available for their proper scrutiny. Arrangements may, therefore, be made to send the estimates strictly on the due dates.

10. In the consolidated Budget Estimates, the totals of major heads are to be rounded to thousands of rupees and those of minor heads to hundreds of rupees. In fixing the provision under individual heads of account, the provisions will have to be rounded to the nearest hundred. This may be kept in view in preparing the Revised and Budget Estimates at all stages.

11. The Director of Printing, Stationery and Publications is requested to treat all Budget work as urgent and return the Budget sheets on the dates prescribed by the Finance Department. Steps should be taken to see that no delay occurs at any stage in the Press and that the Budget work is given the highest priority by making special arrangements, if need be.

12. Separate detailed instructions regarding preparation of Appendix 'B' Estimates, Revenue and Expenditure Estimates are being issued as usual. Meanwhile, Heads of Departments and other Estimating Officers may arrange to get the material ready for these estimates.

Joint Secretary to Government,
Finance Department.

ANNEXURE I.

G. O. No. FD 8 BPA 69, Bangalore, dated the 16th September 1969.

Revised Criteria for New Service.

Issues orders *re*.—

ORDER No. FD 8 BPA 69, BANGALORE, DATED THE 16TH SEPTEMBER, 1969

In Government Order No. FD 5 BPA 59, dated 17th February 1960, orders were issued indicating the criteria for treating expenditure on a 'New Service' in order to meet the requirements of Article 205 of the Constitution of India. The Public Accounts Committee of the Legislature have examined the criteria laid down in that Government Order in the light of conditions now prevailing and have recommended modifications of the limits for treating expenditure on 'New Service as per annexure'.

2. The Governor is pleased to accept the revised criteria recommended by the Public Accounts Committee for 'New Service' laid down in the Annexure, which should be followed in future in determining whether a particular item of expenditure not contemplated in the Annual Financial Statement (Budget) is a 'New Service' or not. In cases of doubt relating to the interpretation of the term 'New Service', the opinion of the Finance Department is final.

3. The Public Accounts Committee have also recommended that all items of expenditure coming under the category mentioned in the Annexure which are contemplated for the first time and Budget provisions for which are included in the original Budget Estimates for the year should be listed out or detailed in the explanatory notes of the Budget Memorandum for the information of the Legislature. Hence in respect of 'New items' of expenditure falling under this category, the Secretaries to Government and Heads of Departments should see that full particulars are made available to the Finance Department for distinct exhibition in the Annual Budget Estimates.

4. The Secretaries to Government and Heads of Departments are requested to see that expenditure on any item coming under 'New Service' not included in the Budget is not incurred without obtaining the specific approval of the Legislature in the form of Supplementary demands for grants. If need arises to incur additional expenditure over and above the existing provisions under any items or expenditure on items which are proposed to be treated as 'New Service' not contemplated in the Annual Budget Estimates the proposal should be made to the Finance Department through the Administrative Department with the following information.—

(i) why the expenditure could not be contemplated at the time of preparation of the Budget Estimates;

(ii) why the expenditure cannot be postponed to the next year so that expenditure can be incurred after making necessary provision in the Budget.

Any lapse on the part of the Departments to bring to the notice of the Legislature items of expenditure on 'New Service' before the expenditure is incurred will be seriously viewed.

N. S. BHARATH,
Joint Secretary to Government,
Finance Department.

ANNEXURE I—*(contd.)*

No. FD 8 BPA 69, BANGALORE, DATED THE 16TH SEPTEMBER 1969.

NEW SERVICE.

Sl. No.	Item of Expenditure	Criteria for treating the expenditure as on 'New Service'
1	2	3
1.	Additional Staff for normal increase of work for a purely temporary need in Government Departments.	The employment of additional staff in connection with an existing service for a purely temporary need, (for a specified period) need not be treated as a 'New Service', whatever be the amount involved. The employment of additional staff for re-organisation of existing administrative unit, such as the bifurcation of Revenue or a Police District, or the creation of a new Administrative Unit (*e.g.*, a New Public Works Circle), constitutes 'New Service'. Employment of additional staff for the extension of existing service where the increased expenditure is estimated to be more than double the Budget provision of Rs. 5 lakhs per annum, whichever is more would constitute 'New Instrument of Service' and should be brought specifically to the notice of the Legislature.
2.	Cases (Other than those referred to in Sl. Nos. 1, 6, 8, 11 and 12) already approved by the Legislature, but where expenditure is subsequently expected to exceed appreciably the amount originally intimated to the Legislature.	These cases need not be treated as "New Service" provided the increase over the grant previously voted does not exceed two times the previous grant or Rs. 5 lakhs, whichever is more.
3.	Grants and Contributions ...	When the amount involved exceeds Rs. 1 lakh recurring and Rs. 2 lakhs non-recurring.
4.	Works	Works including Electricity Schemes expected to cost more than Rs. 5 lakhs. *Explanation.*— This limit applies to original works as also extension and improvement works.
5.	Committees constituted by Government from time to time.	When the expenditure is estimated to exceed Rs. 1 lakh per annum recurring, or Rs. 3 lakhs non-recurring. The non-recurring expenditure is to be reckoned taking the entire cost *i.e.*, cost of establishment building equipment, other amenities, etc.,
6.	Revision of scales of pay ...	When the extra expenditure (cost) exceeds Rs. 5 lakhs per annum.
7.	Experiments, Investigations and demonstrations.	As a rule, expenditure on experiments, investigations, demonstrations etc., should not be treated as a "New Service".
8.	Loans and advances whether carrying interest or not	Where the amount exceed Rs. 5 lakhs or cases in which the total amount of loan granted exceeds the original budget provision by 50 per cent or Rs. 5 lakhs whichever is higher.

ANNEXURE I—*(contd.)*

No. FD 8 BPA 69, BANGALORE, DATED THE 16TH SEPTEMBER 1969

NEW SERVICE.

Sl. No.	Item of Expenditure	Criteria for treating the expenditure as on a 'New Service'
		Explanation.— In the case of Government Companies, the provision at Sl. No. 11 would apply.
	Change in classification of expenditure.	Expenditure on existing service under one head, but involving provision of funds in a different head due to change in classification of expenditure need not be considered as an expenditure on "New Service". *Explanation.*— Where provision for an existing service has been made either in the Revenue, Capital or Loan section and it is proposed to change the character of the service by transferring it from the existing section to any other section it will constitute 'New Service', if the limits prescribed for such expenditure are exceeded.
10.	Purchase of Tools, Plant and Equipment.	If there is specific provision in the Budget for the purchase, individual purchases need not be treated as 'New Service', irrespective of the cost. Where specific provision is not included in the Budget, the monetary limit shall be Rs. 2 lakhs.
11.	Investments in and Loans to Government Companies and Departmental Undertakings.	(i) Setting up of a new Government Company or amalgamation of two or more Government Companies will constitute 'New Service' and taking up a new activity by the existing Government company or a departmental undertaking will constitute 'New Service'. (ii) Additional investments in an existing departmental undertaking of Rs. 25 lakhs and above or 50 per cent of the Budget provision, whichever is more. (iii) Additional investment in or loans to an existing Government Company exceeding Rs. 5 lakhs or 50% of the Budget provision, whichever is more.
12.	Investments in Private sector Companies/Private Institutions.	(i) Investments in share capital of Private Sector Co./ Private Institutions to be made for the first time. (ii) Additional investments in share capital to existing Private sector companies/private institutions of Rs. 10 lakhs and above or 50 per cent of the Budget provisions whichever is more.

NEW SERVICE.

Sl. No.	Item of Expenditure	Criteria for treating the expenditure as on a 'New Service'
13.	Subsidies	In all cases where the losses resulting from difference between the sale and cost price of fertilisers, agricultural implements, foodgrains, etc., are covered by subsidies, the details of scheme of subsidy should be indicated in the Budget documents. Besides showing subsidy as a separate head under the relevant demand adequate details regarding the scheme of subsidy on each commodity and the reasons should be shown in the Budget documents so that the Legislature is fully cognizant of the details of subsidy being voted upon and the reasons for it.

Transfer of Government servants—Instructions regarding

OFFICIAL MEMORANDUM

No. GAD 8 STR 72, BANGALORE, DATED THE 9TH AUGUST 1972.

Instructions were issued in Official Memorandum No. GAD 2 STR 72, dated 8th April 1972 that premature transfers of Gazetted Government servants should be ordered by the transferring authorities only after obtaining the prior approval of the Chief Minister. Instances have come to the notice of Government where the transferring authorities have ordered premature transfers of Gazetted Government servants and then sought ratification of their action by Government. This is highly irregular. All the transferring authorities are directed to ensure that premature transfers of Gazetted Government servents are made only after obtaining the *prior approval of the Chief Minister* through the concerned Administrative Department of the Secretariat and General Administration Department except in cases of transfers necessitated by promotion of the officer Any departure from this rule will be dealt with very seriously.

OFFICIAL MEMORANDUM

No. FD 20 SRS 72, BANGALORE, DATED THE 26TH JULY 1972.

In the Official Memorandum No. FD 27 SRS 71, dated 19th May 1971 it was clarified that the period of earned leave surrendered for purposes of encashment should not be taken into account for calculating earned leave. This clarification was issued when it was contemplated that the leave availed of and the leave surrendered would go one after the other and a specific period was related both for availment and encashment of leave; *e. g.* if a Government employee applied for earned leave for 31 days for availment and 30 days for encashment from 1st May 1972 the leave for availment would run from 1st May 1972 to 31st May 1972 and the leave for encashment (or surrendered leave) from 1st June 1972 to 30th June 1972. As the Government employee would otherwise be on leave during the period which he purpose to utilise for encashment, a clarification was issued that the period would not count for earning earned leave.

2. On re-examining this matter, a decision has been taken that the period of leave actually availed of and the leave surrendered should run concurrently, the leave account being debited to the extent of the quantum of leave actually availed of plus the leave surrendered. In the circumstances, there will be no separate period as such for the earned leave surrendered for purpose of encashment. The clarification issued in O. M., dated 19th May 1971, referred to above may, therefore, be treated as cancelled.

Festival Advance to Government Employees on the pattern of Government of India–Sanction of

PREAMBLE :—

According to Article 238 of Mysore Financial Code, an advance of Rs. 120 or one month's basic pay whichever is less, is sanctioned to non-gazetted Government employees, drawing less than Rs. 500 p m., to defray the expenses of important festivals, which is recoverable in 10 equal-monthly instalments.

An embargo was imposed on the disbursement of advance, in G.O. No. FD 15 BUD 72, dated 1st March 1972. Sunsequently Government relaxed the economy orders in respect of festival advances for 'Ugadi' 'Good Friday', 'Tamil New Year's day' and 'Id-Milad'. The amount of festival advance to the employees of the Central Government is Rs. 100 or one month's pay whichever is less, and it is recoverable in 5 equal monthly instalments. On the State side however, the basic pay includes dearness pay if any, and the additional basic pay. Instead of relaxing the economy orders for individual festivals it is desirable to charge the sum admissible, as also, to regulate the recovery of instalments on par with those admissible to the Central Government/employees.

ORDER No. FD 51 RFC 72, BANGALORE, DATED THE 4TH JULY 1972.

Government are accordingly, pleased to direct that with effect from *15th July 1972*, the festival advance to be sanctioned will be regulated as follows :—

(i) The amount of festival advance will be Rs. 100 or one month's basic pay, whichever is less. (The term 'pay' includes Dearness pay if any, and the additional basic pay).

(ii) The advance will be recovered in 5 (five) equal monthly instalments. In cases however, where recovery in five instalments, results in conflict with the standing orders that the take-home pay should not be less than 50 per cent of the total emoluments, then the number of instalments will be extended to a maximum of eight.

(iii) The advance is admissible only to non-gazetted Government servants in receipt of pay not exceeding Rs. 400 p.m.

(vi) The advance will be sanctioned for only one festival in a calendar year.

2. All other details regarding procedure etc., will remain the same as hitherto.

3. Necessary amendments to the provisions of Mysore Financial Code will be issued in due course.

PREAMBLE :—

In Government Orders, dated 11th February 1972 and 1st March 1972 orders were issued to effect savings in expenditure and economy in administration in view of the extremely difficult financial position of the State. The intention of the Government was that in exceptional cases economy orders could be relaxed to provide for essential priority schemes It was not the intention of Government to effect cut in the grants meant for schemes or other measures meant for the welfare of Scheduled Castes and Scheduled Tribes.

Government direct that in relaxation of the Government orders dated 11th February 1972 and 1st March 1972, all schemes pertaining to welfare of Scheduled Castes and Scheduled Tribes are exempted from the operation of the economy orders. The expenditure should however, be limited to the provisions in the non-Plan and Plan Budget Estimates. Proposals for implementation of schemes etc., will, however, continue to be subject to scrutiny of the Finance Department as at present before the expenditure is incurred.

Remission of interest and a portion of loan—Regarding. failed wells drilled by rigs spared by Government—Sanction of—

ORDER No. DPC 350 CLS 71, BANGALORE, DATED THE 3RD JULY, 1972.

In Government Order No. DPC 157 CLS 69, dated 16th July 1970, sanction has been accorded for remission of total interest and 20% to 50% of the amount of loans sanctioned for sinking of wells by the State Co-operative Land Development Bank, the State Agro-Industries Corporation and Commercial Banks in cases where the wells taken up with the assistance of these loans failed for some reason or other. After the issue of the said Government Order, it has come to the notice of the Government that a number of cultivators who would have otherwise asked for the services of rigs from Government, making their own financial arrangements for the cost of drilling, are waiting to obtain loans from the Land Development Bank in order to avail the above facility in case the wells undertaken by them fail. In view of this situation, it is considered necessary that similar concessions be extended to the persons who avail the services of the rigs supplied by the Government.

Government, therefore, directs that the concessions sanctioned in the G. O. No. DPC 157 CLS 69, dated 16th July 1970 namely (1) remission of total interest and (ii) remission of 20% of the loans sanctioned which could be extended upto 50% of the loans sanctioned at the discretion of the Deputy Commissioner depending upon the financial conditions of the loanees and after following the procedure detailed in the G. O. No. DPC 157 CLS 69, dated 16th July 1970 be allowed in the cases of wells which are brought into service after using the Rigs supplied by Government for drilling the cost of which is borne by the cultivators from their own resources subject to the following conditions :—

(i) The site of the well should have been chosen by a Geologist and that a certificate to that effect is obtained before processing the application for claiming concession;

(ii) The Executive Engineer concerned should give a certificate—that wells drilled by rigs of Government failed due to non-availability of water;

(iii) The officer incharge of rigs should also furnish a certificate specifying the reason for the failure of the well drilled by rigs of Government.

The expenditure on account of the concessions allowed in this order should be met from the provisions made for the purpose in the budget of the respective years.

This order issues with the concurrence of Finance Department *vide* their U. O. Note No. 2649/1-3, dated 22nd October 1971.

Integrated and Comprehensive Rural Communication Programme

Ref:—(1) Government Circular No. PWD 127 CRM 72 dated 7th August 1972.
(2) D.O. letter No. PWD 127 CRM 72 dated 8th August 1972.

PREAMBLE :

Recently a survey of accessibility of villages was conducted in the State and according to this survey, it is seen that out of the total number of 26,409 inhabited villages existing in the State, only 10,299 villages forming about 39 per cent of the total inhabited villages have been directly connected by all-weather and motorable roads. Another 9,865 villages forming about 37 per cent have been connected by unmetalled and partly motorable and partly non-motorable roads. The remaining 6,245 villages forming about 24 per cent of the total inhabited villages are not connected by any roads.

2. At present, rural communication works are being done on an ad-hoc basis and under different schemes and by different agencies. There has been a continuous urge from the people of the rural areas, Members of the Assembly, Council and Parliament as well as Village Panchayats and Taluk Boards that the present pace of development in construction and maintenance of rural roads is too inadequate and that it should be accelerated. Being convinced of the immediate need to cover all villages by road communication with a sense of urgency in order to fulfil the commitment of speedy development of the rural area, Government considered it necessary to launch a time-bound massive programme of rural communication works on a planned basis. In pursuance of this, an assurance was held out on the Floor of the Legislative Assembly and Council that a comprehensive Rural Communication Programme of constructing on an average 50 miles (or 80 Kms.) of road in each taluk this year would be taken up. The roads to be constructed include fresh roads and missing links and roads requiring reconditioning. To this end, it is proposed to mobilize funds available for rural communication from all sources under different schemes, such as Drought Prone Area Programme, Special Employment Schemes, Crash Programme for Rural Employment including Land Army Projects, Pilot Intensive Rural Employment Project, World Food Programme, Market Complex, 64—Famine, P.W.D. Programmes and special assistance that Government may provide for the purpose, etc., and channelize the same with appropriate co-ordination, guidance and control.

ORDER NO. PWD 127 CRM 72, BANGALORE, DATED THE 31ST AUGUST, 1972.

Objective:—In fulfilment of the assurance given on the Floor of the Houses of Legislature, Government have now decided to go on a comprehensive and Integrated Rural Communication Programme with the object of ensuring every village in the State with a road communication of such standard as may be necessary commensurate with the traffic load and other criteria within a period of three years.

Scope:—Government have further decided to take up the construction/improvements of rural communication roads at an average of 50 miles (80 Kms) per Taluk throughout the State. Concerned Members of both Houses of Legislature were consulted in the matter of selection of about 50 miles (80 Kms) of

rural communication roads to be taken up under this integrated Schemes in each Taluk and priorities also fixed. The lists have been finalised in consultation with the concerned Engineers of Public Works Department and are now available with the Government and the concerned Engineers of Public Works Department. In fixing up the mileage for each Taluk, due consideration is given to the backwardness of the Taluk in road development so as to narrow down regional imbalances. Enclosed to this Government Order, as Annexure II, is the list indicating therein, the name of the work, the length of the road and the source from which the expenditure has to be met. This list includes the Roads to be taken up in the first stage.

2. The remaining roads, if any, in the list of roads suggested by the Members of Legislature not included in this first stage of the programme and the roads that may further be suggested by them, as well as Panchayats, Taluk Boards and others which require to be constructed or improved in order to ensure that no village in the State is left without a road communication will form the second stage of the programme. Whenever fresh Rural Communication Works are to be taken up under the existing schemes or any new schemes that may be sanctioned from time to time, they should be selected from amongst the roads mentioned in the approved list appended to this Government Order. The list enclosed to this Government Order does not specifically indicate the roads which could be taken up out of the funds provided under "64 Famine". The intention of Government is that wherever it is necessary to start relief works in scarcity affected areas, the road works in such areas, included in the encolsed list, should be given first priority as relief works and other works started to the extent the employment opportunities provided by the Roads in the enclosed programme are inadequate or where works are necessary in the villages which are situated more than three miles from the alignment of the roads.

3. It is considered necessary to implement this programme on a phased basis indicated below so as to obtain maximum results with the limited financial resources :—

I Phase .. Formation of roads with check drains and hume pipe culverts.

II Phase .. Gravelling the road surface, wherever necessary with minor masonry C.D. Works.

(All C.D. Works having a linear waterway of less than 20 ft. are classified as minor C.D. works.

Major C.D. Works and bridges will have to be taken up separately outside this programme).

III Phase .. Providing metal surface, wherever necessary.

I Phase—Standards of construction.—The road may be constructed improved to the following standards :—

(*a*) *In Gravelly soil and ordinary soil* :—

(i) Land width .. .. 40 ft.

(ii) Formation width .. .. 18 ft.

(iii) Check drains of sections .. .. $\frac{3'+1\frac{1}{2}'}{2} \times 1\frac{1}{2}'$

to be provided within the land width at the edges wherever necessary.

(iv) Height of bank to be restricted to the minimum depending upon the terrain conditions.

Provided however that in the case of unimportant village roads including approach roads the Executive Engineer may at his discretion reduce the land width to 33'.

(*b*) *In black cotton soil.*—In addition to the standards prescribed at (*a*) above, murum casing of 9" thickness shall be provided for the entire formation width and the side slopes or in the alternative, soil stabilisation mav be adopted whichever is economical.

Hume pipe culverts of appropriate size should be to the full formation width counted from outside to outside parapet walls.

II Phase.—In the case of roads constructed in ordinary soils, gravelling of road surface may be done to a thickness of 6" for a central width of 10' and consolidated. This is not necessary both for the roads constructed in gravelly soil area and those constructed in black botton soil, where murum casing of 9" thickness will have already been provided.

Minor masonry C.D. Works should be provided as far as possible to the full formation width outside to outside of parapet walls.

III Phase—Providing metal surface.—In heavy rainfall or traffic areas, it may be necessary to provide metal surface.

Wherever it is found necessary, metalling may be done to a minimum thickness of 3" for a width of 9'. This should be done over a soling base of over size metal for 10 ft. width and 4" thickness. Where field or quartz metal is available it may be preferred.

For purposes of speedy implementation of this programme, preferences will be given to Roads where lands are readily made available to the Public Department for constructing the roads.

4. Annexure I to this order which indicates, the probable costs per K.M. for the several phases of works indicated in Para 3, is appended for guidance in respect of the works. The limit up to which the improvements to existing roads could be carried out is fixed at Rs. 7,500 per K.M. discretion being vested with the Executive Engineer to make suitable internal adjustments of excesses and savings in the number of total K.Ms. allotted for each Taluk. The object to be achieved is to see that the entire length of the road is made all-weather road. The works under Special Employment Programme should be, however, executed as per the Standards and financial limit prescribed under it. No excess expenditure over the total ceiling fixed for the entire length of the road should be incurred on any account without obtaining prior approval of Government.

5. *Delegation of Powers.*—With a view to implement this programme expeditiously, Government are pleased to delegate the following special powers to P.W.D. Officers. Exclusively in respect of this programme.

FINANCE SECRETARIAT

Furnishing of information called for by the Public Accounts Committee

OFFICIAL MEMORANDUM

No. FD 6 BPA 72, BANGALORE, DATED 20TH JUNE 1972.

Attention is invited to Government Circular No. FD 11 BPA 61, dated 29th June 1961, Official Memorandum No. FD 2 BPA 63, dated 22nd April 1963, Official Memorandum No. FD 59 BUD 66, dated 5th August 1966 and Official Memorandum No.FD 10 BPA 66 dated 4th January 1967, wherein instructions were issued regarding prompt supply of information asked for by the Public Accounts Committee. In spite of these instructions it is observed that there were instances where the information called for by the Committee was not supplied at all or supplied very late and the Committee could not make use of the same.

2. The Public Accounts Committee have made the following recommendations in paras 5, 5A, 5B and 5C of their Sixth Report (Fourth Assembly) regarding failure to furnish information promised during evidence—

"5. In addition to examining the Secretaries to Government and the Heads of Departments on the various audit paragraphs the Committee had also occasions to call for additional information from the departmental representatives on certain points which emerged directly during evidence. The departmental representatives promised to furnish the additional information subsequently but the Committee regret to observe that the requisite information has either not reached them or reached them too late to modify their report after its finalisation in respect of certain cases.

5A. The Committee are unhappy to note that such delays on the part of the departments to furnish the requisite information will not only hamper the work of the Committee, but also prevent them from arriving at any definite conclusions. Needless to state, the very aim of the meeting would be defeated if at every stage the Committee have to await notes from the departments.

5B. The Committee wish to emphasise that the departments of Government should deal with the requests from the Committee with due promptitude and furnish the required information in a complete form within a fortnight, unless the circumstances in any individual cases are such as to warrant further the extension of time in which case a report should be sent to the Committee apprising of the actual difficulties and the time required by the departments to furnish the information.

5C. The Committee recommend to Government in Finance Department to review the position and issue strict instructions in the light of these observations."

3. In spite of repeated instructions of Government, it is unfortunate that the information asked for by the Committee is not supplied in time or not supplied at all. As recommended by the Committee, whenever information is asked for by them the same should be furnished in complete form within a fortnight, unless the circumstances in any individual cases are such as to warrant extension of time In such cases, a report should be sent to the Committee apprising of the actual difficulties and the time required to furnish the information.

4. The Secretaries to Government and the Heads of Departments are requested to see that these instructions are followed strictly and there will be no occasion for the Committee to make similar observations in future.

N. S. BHARATH,
Joint Secretary to Government,
Finance Department.

(2) G. O. No. FD 15 BUD 72, dated 1st March 1972.

PREAMBLE :—

In G. O. dated 11th February 1972 it was directed that no work which had not been taken up whether it had been approved and also irrespective of whether there was Budget provision or not should be taken up for execution. Further in G. O dated 1st March 1972 Government directed the officers of Public Works Department not to start any new work even though it may have been sanctioned. Government have also directed that all minor works or repairs except when they are emergent like repairs to breached tanks or bridges should be postponed until further orders. The intention of the Government was, in exceptional cases the economy orders would be relaxed to provide for essential priority works

ORDER No. FD 78 BUD 72, DATED BANGALORE, THE 7TH JULY 1972.

The position has now been reviewed and the following clarifications are issued in this regard:—

(1) In respect of works where administrative approval has already been accorded, but the work has not yet been taken up for execution, the officers of the Public Works Department should review the need for taking up these works and obtain specific orders of Government. In case specific budget provision has been made in respect of works costing over Rs.1 lakh, Government will consider favourably relaxation of the economy orders in respect of priority works.

(2) In respect of original works costing Rs.1 lakh and less, Government may consider relaxation of the economy orders only in case the Heads of Departments are in a position to restrict the outlay on such works to the available budget provision without asking for additional grants and provided that the works can be completed before the close of the financial year without any spill-over into the following year.

(3) In respect of minor works or repair works the economy orders are relaxed on the condition that the officers of the Public Works Department restrict expenditure on such works to the budget provisions and ensure that there is no spill-over after the close of the current financial year.

Joint Secretary to Government,

Inviting tenders on percentage basis instead of Item war in respect of roads and irrigation works costing Rs. 5 lakhs and less.

READ.—

(1) G. O. No. PWD 138 ECO 63/64, dated 6th June 1964.

(2) Letter No. HMT/Canals/-RPT/TND/TAC/71/1488-90, dated 24th December 1971 from the Chief Engineer, Irrigation (South), Bangalore.

PREAMBLE—

1 In G. O., dated 6th June 1964 cited above it was directed that the tenders for works costing Rs. 1 lakh and less involving items of earth work, etc., may be called for on percentage basis.

2 It is however, pointed out by the Chief Engineer, Irrigation (South), in his letter of 24th December 1971 cited above that if tenders are invited on percentage basis, contractors will have no scope to quote un-realistic rates of soils and rock excavation in canals resulting in advantage either to the department or to the contractor. He has pointed out that the difficulty experienced in repect of item wise tenders is that there is no consistency in quoting item wise rates for canal excavation in different kinds of soils. The contractors with a view to secure the work have a tendency to offer un-realistic rates. If the items, for which the rates quoted are low, are many, it is likely that they may do only the items which are found advantageous to them and abandon those for which rates quoted by them are unfavourable, thus putting the Department to avoidable extra expenditure on this Account. He has therefore, requested Government to issue orders permitting works costing up to Rs. 5 lakhs to be taken on percentage basis.

ORDER No. PWD 105 FCR 72, BANGALORE, DATED THE 25TH JULY 1972.

After careful consideration of the proposal made by the Chief Engineer Government hereby direct that the tenders for works costing up to Rs. 5 lakhs may be called for, on percentage basis in Public Works Department to avoid the possibility of freak or unrealistic rates being quoted by the contractors, in supersession of the orders contained in G.O. No. PWD 138 ECO 63/64, dated 6th June 1964.

IMPORTANT GOVERNMENT ORDERS

FINANCE SECRETARIAT

Expeditious disposal of pension cases—issues instructions regarding—

CIRCULAR

No. FD (SPL) PP2/PEN/72, BANGALORE, DATED THE 10TH AUGUST 1972.

It has been emphasised many a time that a Government servant should get his pension on the date on which it becomes due in accordance with the policy of Government embodied in Rule 324 of the M. C. S. Rs. To achieve this goal, Government have issued undermentioned Circulars from time to time focussing the attention of pension sanctioning authorities to the provisions of Rule 324 to 331 of M. C. S. Rs. regarding processing of pension cases by the Head of the offices as soon as it becomes known that a Government servant would retire within a period of twelve months or would proceed on leave preparatory to retirement without waiting for the formal application for pension from the Government servant. It has also been stressed that the preliminary verification of pensionable service should be taken up twelve months in advance of the date of retirement.

1. G. O. No. FD 335 PEN 61 dated 25th October 1961.
2. O. M. No. FD (spl) 158 PEN 62 dated 31st December 1962.
3. O. M. No. FD (spl) 41 PEN 64 dated 28th September 1964.
4. O. M. No. FD (spl) 342 PEN 64 dated 23rd December 1964.
5. O. M. No. FD (spl) 38 PEN 65 dated 2nd February 1965.
6. O. M. No. FD (spl) 395 PEN 65 dated 6th April 1966.
7. Circular No. FD (spl) 356 PEN 68 dated 9th December 1968.
8. Circular No. FD (spl) 292 PEN 69 dated 7th August 1969.

2. It is seen in practice that the pension cases of retiring Government servants are not being processed well in time and forwarded to the Accountant General for preliminary verification as prescribed. It need hardly be emphasised that delay in processing pension papers will entail delay in settlement of pension claims.

3. There should be no difficulty in processing and forwarding the pension cases well in time, as the pension rules governing the assessment of pension are very much simplified as under:

(i) Pension is calculated on the basis of the average emoluments for the last 12 months instead of 36 months (Rule 297A of M.C.S. Rs.).

(ii) The entire service whether temporary or permanent excluding periods of absence count as qualifying service. Even periods of L. W. A. upto 3 years are taken into account (Rule 214 A of M. C. S. Rs.)

(iii) The Accountant General himself builds up the pension papers in respect of Gazetted Officers. (Rule 327 of M. C. S. Rs.)

(iv) Wherever delay in settlement of pension is anticipated, the pension sanctioning authority is empowered to sanction anticipatory payments, to the extent of 75 per cent of the amount of the pension and Death-*cum*-Retirement Gratuity. The Head of the Department in the case of Gazetted Officers and the pension sanctioning authority in other cases are also empowered to draw and disburse these anticipatory payments (Rule 341 of M. C. S. Rs.)

In spite of aforesaid measures taken by Government, it has not yielded the desired result of a pensioner getting this pension when it is due. On the other hand the pension cases outstanding with the pension sanctioning authorities are increasing, causing embarrassment to Government.

4. The Accountant General has also brought to the notice of Government that the pension cases received by him for preliminary verification are very few and far between and even the cases returned after verification are not being received back promptly for issue of pension payment order.

5. Government desire that there should be no delay at any stage in the settlement of pension cases. The present delay noticed on the part of pension sanctioning authorities may be mainly attributed to one or more of the following reasons:

(i) Ignorance of Rules and procedure on the subject both by the subordinate staff as well as officers concerned.

(ii) Non-exercise of the powers of sanction of anticipatory pension and final pension in time.

(iii) Negligence on the part of pension sanctioning authorities in not complying with the instructions issued from time to time in several standing orders of the Finance Department.

6. In order to streamline the procedure relating to processing of pension papers and expedite their disposals, Government have recently constituted a peripatetic party headed by Special Officer (Pension), Finance Department with a sole object of inspecting the offices of pension-sanctioning authorities in order to guide the officers concerned in processing properly the pension papers. All Heads of Departments and pension sanctioning authorities are requested to make use of this opportunity and hasten the processing of pension papers with them. During local inspection, the Special Officer (Pension) would not only guide the officers concerned in the preparation of pension papers, but also bring to notice of higher authorities and Government, cases of avoidable delay. Any case or groups of cases requiring sanction of Government on specific issues will be dealt with expeditiously at Secretariat level.

Secretary to Government of Mysore,

HEALTH AND MUNICIPAL ADMINISTRATION SECRETARIAT

Department of Health and Family Planning Services-Reorganisation of—

PREAMBLE.—

The Medical and Public Health Department which had separate Directorates were amalgamated in the year 1955 considering their homogeneity and the need for greater and effective co-ordination particularly in the context of the Community Development Programme under which Primary Health Centres were established during the First and Second Five Year Plans in every Block resulting in the extension of both preventive and curative health services to all the rural areas. The responsibility for the administration of most of the Hospital/Medical Institutions at and below Taluk level was also transferred from the Medical Department to the Public Health Department from 1st June, 1960, in Government Order No. LLH 761 MDA 57 dated 21rd May 1960, thus preventing the overlapping of functions of the Medical and Public Health Departments. Though a common Directorate of Health Services was created in the year 1965, a complete merger of the two departments at all levels has not yet taken place and consequently there has been lack of co-ordination and effective supervision of the Health Services all over the State. Due to the expansion of the Family Planning Services, the Directorate itself came to be called the Directorate of Health and Family Planning Services and the District Health Officers were also redesignated as District Health and Family Planning Officers. A large number of Family Planning workers have also been appointed at all levels in recent years. In this context, certain reforms to improve the working of the Department of Health and Family Planning Services have become imperative.

ORDER No. HMA 130 MSM 72, DATED BANGALORE, THE 24TH JULY 1972.

The Government on careful consideration of the administrative problems facing the Department of Health and Family Planning Services, find that the Primary Health Centres in the rural areas which have been sanctioned a large complement of staff are not functioning effectively for want of proper supervision and guidance. Secondly the head office *i.e.*, the Directorate of Health and Family Planning Services is burdened with too much of routine establishment matters preventing it from paying adequate attention to other important matters concerning the heath and family planning services in the State. The Government, therefore, consider it necessary to reorganise the Directorate with immediate effect and to decentralise the administration in the following manner, without involving any extra cost to Government:—

1. Four posts of Regional Deputy Directors of Health and Family Planning Services are hereby sanctioned by transferring the following three posts now attached to the Directorate, namely (1) Deputy Director (Malaria and Filaria), 2) Deputy Director (Communicable Diseases) and (3) Deputy Director (Medical) and by creating one new post of Deputy Director. They shall be stationed at the following Regional Headquarters, *viz.*,

(i) Bangalore (ii) Mysore (iii) Belgaum and (iv) Gulbarga.

3. One new post of Deputy Director (Tuberculosis and Leprosy) and one new post of Assistant Director (Medical) are hereby sanctioned at the Directorate.

(iv) Regional Deputy Directors of Health and Family Planning Services. } Rs.1000-50-1200-60-1500
(v) Deputy Director (T. B. and Leprosy) }
(vi) Assistant Director (Medical) Rs.800-40-1000-50-1250.

The Class III and IV staff to the newly created offices will be provided by suitable readjustment from within the sanctioned posts.

II. The Director of Health and Family Planning Services in Mysore, Bangalore will issue separate orders delegating powers and re-allocating work to the several officers of the Directorate. So far delegation of powers to the Regional Deputy Directors and reallocation of staff from the Directorate to the Regional Offices are concerned, the Director or Health and Family Planning Services is requested to submit necessary proposals immediately for approval of Government. The Regional Deputy Directors shall be responsible to the Directorate and in particular, to the Joint Director (Health), Joint Director (Family Planning) and Joint Director (Malaria and Filaria) in their respective branches of work.

IMPORTANT GOVERNMENT ORDERS

CHIEF SECRETARIAT

Redressal of grievances of Government Servants—Instructions regarding.

REF:—

(1) Official Memorandum No. GAD 18 SSR 68, dated 8th April 1968.
(2) Official Memorandum No. GAD 4 SSR 69, dated 6th February 1969.
(3) Circular No. GAD 5 SRC 72, dated 2nd May 1972 and 9th June 1972.

CIRCULAR

No. GAD 9 SRC 72, BANGALORE, DATED THE 10TH/21ST AUGUST 1972.

In the references read in the preamble, instructions were issued impressing upon the Government servants that they should not use the good offices of Legislators or other influence for furthering their official interests. They have also been warned that in case they disregard these instructions they would become liable to disciplinary action under the rules. While it is necessary that Government servants should strictly observe the conduct rules and avoid going to Legislators for redressal of their legitimate grievances, one of the reasons why they may do so is that the Heads of Offices/Heads of Departments under whom they work do not give them a sympathetic hearing and appreciate their problems. If this is done, in a majority of cases, most of the Government servants will have no occasion to go to the Legislators. Government therefore desire that Heads of Offices/Heads of Departments while complying with the procedure laid down in Government Order No. GAD 58 OOM 62, dated 12th July 1962 as partially modified in Government Order No. GAD 84 SRR 66, dated 29th August 1966, should hear the grievances of the officials working under them and solve their difficulties to the extent possible in conformity with the rules in force.

CIRCULAR

No. GAD 3 SMR 72, BANGALORE, DATED THE 26TH AUGUST 1972.

Under the Mysore Government Servants' (Medical Attendance) Rules 1963, Government Servants are entitled to reimbursement of the cost of spectacles once during their entire service, for themselves and members of their families. A declaration has to be furnished in form D of these rules by Government servants when claiming the reimbursement. As a safeguard against possible double payment and to facilitate check of such claims during local audit, the Accountant General has suggested that the details relating to the refund of cost of spectacles may be noted in the Service Registers of the officials concerned Government accordingly direct that the Controlling Authorities should note in the Service Register of the concerned Government Servant, the details of sanctions accorded and payment made towards refund of the cost of spectacles to the Government servant or members of his family and satisfy themselves about the correctness of the declaration before the claims are passed.

General Provident Fund withdrawal for construction of a building-Clarification-

OFFICIAL MEMORANDUM

No. FD 184 PPF 72, BANGALORE, DATED THE 25TH AUGUST 1972.

According to Clause (f) of sub-rule (1) of Rule 25 of the Mysore General Provident Fund Rules, 1957, withdrawals are sanctioned for the purposes of construction or reconstruction of a house and also for effecting additions and alterations to the houses besides for other purposes. The Accountant General Mysore, Bangalore, has pointed out that the words "In the case of construction of a house" occurring in Clause (f) of sub-rule (1) of Rule 25 of the above said rules are often interpreted by sanctioning authorities as implying first construction of a house only. When the withdrawal is sanctioned for additions, alterations to and reconstruction of a house, they expect the amount to be released in one instalment. He has therefore requested Government to clarify whether in the case of withdrawal for the purpose of additions and or alterations to and reconstruction of the house also, the amount should be released in two instalments as envisaged in Clause (f) of sub rule (1) of Rule 25 or only in one instalment.

It is hereby clarified that in cases of withdrawal sanctioned for the purposes of construction or reconstruction of a house, the sanctioned amount shall be released in two instalments whereas in respect of withdrawal for the purpose of effecting additions and alterations to a building, the sanctioned amount shall be released in one instalment only.

GENERAL ADMINISTRATION SECRETARIAT

Resolution passed by the N.G.O s Association, Raichur District—expediting action to issue orders on certain matters.

OFFICIAL MEMORANDUM

No. GAD 20 1MC 71, BANGALORE, DATED THE 7TH JULY 1972.

It has been represented to Government by the Non-Gazetted Officers Association of Raichur District Branch to consider the question of giving the benefits of promotions to such of those officials who were promoted to higher cadres in their parent States immediately priorto 1st November 1956 and who took charge of their posts in the new State subsequent to 31st October 1956, after availing

the usual joining time allowed in the respective States' rules. The Inter-State seniority list depicts the factual position as on 31st October 1956. So, the names of officials though promoted to the higher cadre but had not joined the higher post on or before 31st October 1956, do not find place in the higher cadre. Consequently, such officials are not being given benefits or higher posts while considering their cases for further promotions etc, on the plea that their names are not shown in the Inter-State seniority lists or they have less service in the higher cadre than their juniors. The circumstances of a case can be better understood from the following example :—

'Sriyuths X and Y were III Grade Clerks of the former Hyderabad State. Sri X was senior to Sri Y in the former State. In an order passed on 26th October 1956 both Sriyuths X and Y were promoted as II Grade Clerks. Sri Y took charge of the higher post on 26th October 1956 itself; but Sri X could not take charge of the higher post till 2nd November 1956, for some genuine reasons like availment of joining time. He joined the higher post after availing the usual joining time allowed to him as per the rules existed in the parent State. Based on the factual position existed on 31st October 1956, in the Inter-State Seniority List of II Grade Clerks equated with the I Division Clerks in the New Mysore State as on 1st November 1956, only the name of Sri Y appears, whereas the name of Sri X has been omitted for the reason that he was not actually holding the post of II Grade Clerk on 31st October 1956.'

2 As indicated above for purposes of Inter-State Seniority Lists as on 1st November 1956, the factual position that existed on 31st October 1956 alone is taken into account. This means that the names of persons who had not taken charge of the higher post on promotion prior to 1st November 1956, are not included in higher categories in the Inter-State Seniority Lists. If according to the rules in force in the parent State Sri X would have retained his seniority over Sri Y in the cadre of II Grade Clerks with reference to their inter-se-seniority in the immediate cadre, then Sri X will have to be given seniority over Y in the cadre of I Division Clerks of the new Mysore State.

3 Though the name of 'X' does not appear in the Inter-State Seniority list of I Division Clerks and equivalent cadres as on 1st November 1956 and though he has put in less service in that cadre he has to be given due ranking in the gradation list which will be prepared subsequent to 1st November 1956.

4. The Government of India have agreed to such a revision in ranks in the gradation list to be prepared by State Government subsequent to 1st November 1956. They have also directed that such revision will have to be done after circulating the specific proposal for inviting objections. Government, therefore, direct that all cases of the nature referred to above, may be examined and the seniority of the officials that existed in the parent State prior to 31st October 1956 in the lower cadres may be restored in the higher cadre in the new Mysore State in the gradation list that may be prepared subsequent to 1st November 1956 if it was so required to be maintained in their parent State after following the procedure indicated above.

Transfer of Government servants who are looking after the families of Defence personnel Instructions regarding—

REFERENCE.—

Government Order No. GAD 8 CAR 58, dated 16th February 1959.
Government Order No. GAD 4 STR 70, dated 26th May 1971.
Official Memorandum No. GAD 2 STR 72, dated 8th April 1972.

CIRCULAR

No. GAD 7 STR 72, BANGALORE, DATED THE 12TH SEPTEMBER 1972.

It has been represented to Government that transfers of Government servants who are looking after the families of Defence personnel are sometimes causing hardship to the families of the Defence personnel. Government are pleased to direct that whenever Government servants who are care-takers of the families of serving Defence personnel or of those killed or disabled in action represent to the transferring authorities that their transfer would cause hardship to the families of the Defence personnel, the transferring authorities may consider their cases sympathetically after satisfying themselves that such Government servants are in fact looking after the dependents of jawans.

Giving preference in the matter of employment to the citizens whose properties are acquired for Projects.

OFFICIAL MEMORANDUM

No. GAD 58 SRR 72, BANGALORE, DATED THE 13TH SEPTEMBER 1972.

The Government of India have issued instructions with regard to giving preference in the matter of employment to the persons whose properties are acquired for defence or Industrial Projects. These instructions provide :—

(i) that in the cases of skilled workers, clerks, and other non-technical staff whose pay scales are comparatively low, preference may be given for employment to persons displaced from the areas acquired for the projects especially to those belonging to Scheduled Castes and Scheduled Tribes provided they possess the basic qualifications;

(ii) that such preference be available only against vacancies on the project for which their lands are acquired; and

(iii) that the preference would not continue to be available if it has not been possible to absorb them either at the construction stage or at the stage when the project goes into production.

2. The question of giving similar preference to the persons who are displaced consequent on acquisition of their lands for State Government or quasi-Government projects has been examined. The Director, Employment and Training has recommended that the instructions issued by the Government of India may also be followed by the State Government.

3. As far as the State Civil Services are concerned, almost all Class III posts are either within the purview of the Public Service Commission or the appropriate Recruitment Committees and the selection to these posts has to be done by them in accordance with the statutory rules. It is, therefore, not permissible to give preference in making appointments to the Class III posts in general but only in respect of categories of Class III and Class IV posts which are outside the purview of the Public Service Commission and the Recruitment Committees.

4. In the circumstances, the District Employment Exchange Officers having jurisdiction over the project areas may recommend in preference to others the names of the persons whose lands are acquired for the project especially those belonging to Scheduled Castes/Scheduled Tribes, for appointment against posts/vacancies borne on that project which are required to be filled in through the Employment Exchange. The preference will not be available against any other project and will cease to be available against that project if it has not been possible to absorb them before completion or construction of the project.

5. The orders in force from time to time with regard to reservation of vacancies in favour of Scheduled Castes, Scheduled Tribes and Backward Classes should however be followed while making appointments as per the above instructions.

Deputy Secretary to Government,
General Administration Department

Constitution of a Committee to examine the causes relating to the fall in price of Areca and other allied matters–Sanctions the—

ORDER No. AF 232 AHM 72, BANGALORE, THE DATED 19TH SEPTEMBER, 1972.

There has been a steep fall in the prices of Arecanut in the various Markets in ths State. Representations have been received by Government in and out of the Legislature requesting Government to take steps to arrest further fall in the prices of Areca. Government have examined the situation at length and various steps have been taken to stabilise the price and prevent further fall of price. There is at present no scientific and authentic data giving the cost of production of Arecanut in the State. In the absence of such data it is difficult to work out the reasonable margin of profit for areca growers. Therefore, Government are of the *view* that the question of collecting necessary data and keeping an up-to-date record enabling them to determine whether any rate of arecanut ruling on any particular date is economic and whether it leaves a reasonable margin for the Agriculturist should be examined Since the question involves collection of data and scrutiny of various aspects of Production, Marketing and prices of Areca, it is considered necessary to constitute a Committee of Experts to undertake a study of the entire question and make recommendations based on the study for the consideration of Government.

2. Accordingly the Government of Mysore constitute a Committee consisting of the following persons to study the price structure of Areca and other allied matters.

(3) A representative of the Areca Research Stations	....	Member

(4) A nominee of the Chief Marketing Officer, Government of Mysore, Bangalore.	....	Member
(5) The Joint Director of Horticulture (Development)	....	Convenor of the Committee

3. The terms of reference of the Committee are as under:—

(i) The Committee will examine the causes relating to the fall in prices of areca and collect such data as is essential to work out the reasonable cost of production under certain assured conditions, which will enable the Government to compare the cost of production with the selling price of Areca at any given time.

(ii) The Committee will also suggest to what should constitute a selling price giving the growers a reasonable margin of profits which should be calculated with reference to the cost of production in the recent past years, the selling price of Arecanut in those years and the general market conditions in the State in particular and the country in general.

4. The Committee will have a right to co-opt any person as an additional member of the Committee.

FINANCE SECRETARIAT

Introduction of the system of 'Letter of Credits' in the Public Works Department- Instructions regarding—

ORDER No. FD 104 BUD 72, BANGALORE, DATED THE 14TH SEPTEMBER 1972.

Under the existing procedure, Drawing and Disbursing Officers of some of the major spending departments of State Government like Public Works are permitted to make payments by cheques. The disbursements made in this manner some times come to the notice of the Controlling Officers and the Finance Department after considerable lapse of time, often necessitating provision of additional funds through Supplementary Estimates. Resources for such additional requirements are either not available or can be raised only after a lapse of time. Government have, therefore, decided to introduce a system of 'Letter of Credit' in the Public Works Department in the first instance. The rules in the Mysore Treasury Code authorise the procedure of 'Letters of Credit' (*vide* Article 72 of Mysore Treasury Code). Under these rules the maximum amount up to which the Drawing/Disbursing Officer has authority to draw at a particular Treasury can be specified. Such a procedure is already in vogue in respect of drawals by Officers of the Postal Department of the Central Government and in the Public Works Department of some other States. As in the case of Post and Telegraphs Department, it is proposed to issue monthly 'Letters of Credit' which lapse at the close of the month for which they are issued.

2. Instructions regarding the issue of Letter of Credit are contained in the Annexure. The Chief Engineers will obtain particulars of requirements of funds of each Drawing/Disbursing Officer authorised to make payments by cheques. The requirements will have to be indicated month-wise from the year 1972-73. While determining the amounts to be allocated under this system it would be necessary to ensure that expenditure is not debited to suspense or remittance heads of account without being charged to the relevant service heads. The debits, if any, in these transit heads will have to be cleared very expeditiously, so that large amounts do not remain without being accounted for as expenditure incurred by the spending departments against their budget allotments.

3. This procedure of limiting the drawals of funds by the Drawing/ Disbursing Officers to the budget allocations is considered necessary and is really an alternative to the risk of stoppage of payments by the Reserve Bank of India, if and when a State Government runs into an unauthorised overdraft. The Chief Engineers are requested to ensure that the amounts for Letters of Credits are so determined that the budget grants allotted to them are not exceeded in any case. Before issusing the letters of credit, the Chief Engineers are requested to obtain clearance from the Finance Officer and *Ex-Officio* Deputy Secretary to Government, Public Works Department and every letter of credit should clearly state that it is being issued with the concurrence of the Finance Officer and *Ex-Officio* Deputy Secretary to Government, Public Works Department. The Treasury Officers will also observe the provisions of Article 72 of the Mysore Treasury Code so that the limits set out in the Letters of Credit are not exceeded. Where the cash business of the Treasury is conducted by a Bank, the Manager of the Bank is requested to follow the same procedure as the Treasury in this respect.

4. The system of Letter of Credit will be introduced with effect from 1st November 1972 in the Public Works Department.

By Order and in the name of the Governor of Mysore,

N. S. BHARATH,

290 *Joint Secretary to Government,*
Finance Department.

ANNEXURE

Instructions regarding the issue of "Letter of Credit".

1. Executive Engineers of the Public Works Department who are authorised to make payments by cheques will be placed in funds by means of monthly Letters of Credit granted in their favour by the Chief Engineer concerned. These Drawing and Disbursing Officers will obtain money for disbursements solely by cheques against their Letters of Credit. If Assistant Engineers are empowered to make disbursements, the Executive Engineers may authorise them to obtain money from the Treasuries within their jurisdiction by drawing cheques against the Executive Engineer's Letter of Credit, for which purpose the Executive Engineer will authorise the District Treasury Officer or he may place them in funds by means of a fixed imprest.

2. Letters of Credit lapse at the close of the month to which they relate. When a Letter of Credit lapses at the close of the month, the cheque drawn before but paid after the end of the month will be taken against the Letter of Credit of the month in which it was drawn.

3. A Letter of Credit is the Executive Engineer's authority, to draw and the Treasury Officer's authority cash up to its amount.

4. The Treasury Officer debits the Executive Engineer with paid cheques only and credits him with the amount of the Letter of Credit. For this purpose the Treasury will maintain a Register in Form No. 28 of Mysore Treasury Code

to record the amount of Letter of Credit, payment made and the balance after each payment. Earned Leave—Conversion of—into commuted leave retrospectively—Instructions issued,

OFFICIAL MEMORANDUM

No. FD 195 SRS 72, BANGALORE DATED THE 3RD OCTOBER, 1972.

1. It has been brought to the notice of Government that some officers who had applied for and availed of Earned Leave prior to 1971, are now requesting for conversion of such Earned Leave into Commuted Leave retrospectively so that they may have Earned Leave at their credit, for availing the benefit of encashment.

2. No doubt according to Rule 165(2) of the Mysore Civil Services Rules, it is permissible to convert one kind of leave into another. But, the position becomes different with the introduction of a scheme of surrender of Earned Leave for purposes of encashment. While it is the intention of Government that their employees should avail of the facility of the surrender of Earned leave which was at their credit at the time of introduction of the scheme (*vide* G. O. No. FD 59 SRS 71, dated 29th January 1971), it would be conferring an unintended benefit if the employees want to have earned leave at credit by converting the leave already availed of, just to get the benefits of leave encashment.

3. On a careful examination of the implications of such a conversion, it is directed that requests from Government employees for conversion of Earned Leave already sanctioned and availed of prior to 29th January, 1971 (*i. e.*, the date of issue of Government Order sanctioning the scheme of encashment of Earned Leave) into Commuted leave should not be entertained.

4. Past cases already decided otherwise need not be reopened.

The progress registered so far in the enrolment of members and collection of subscriptions from them has not been as encouraging as expected. The question of taking special measures for making the Fund more popular among the employees was considered by the Governing Body of the Fund in its meeting held on 18th November 1972. The President, Mysore State Government Employees' Association, suggested that a **Special Drive** for enrolment of members may be launched during next month by deputing two employees' representatives nominated by the Association for each District to visit the District and Taluka Headquarters for popularisation of the objectives of the Fund and collection of applications from the employees for membership thereof. The President of the Association is confident that at least 80 per cent of the employees could be enrolled as members by such a **Special Drive.** This proposal has been accepted by the Governing Body of the Fund.

2. Government are therefore, pleased to order that—

(iii) The representatives will commence tour on 11th December 1972 and complete the special drive by the third week of December 1972. The tour programme has to be taken up without detriment to urgent official business, if any ;

(iv) The representatives should carry with them an up-to-date copy of the rules governing the Fund and sufficient number of application forms for membership ;

(v) The representatives should meet the Deputy Commissioner of the concerned District and discuss with him the details of the programme and act according to his suggestions ;

(vi) The expenditure on T.A. in connection with the tour is debitable to the head of account from which the pay and allowances of the representatives are met ;

(vii) The Director of Printing, Stationery and Publications, Bangalore should keep sufficient number of forms ready for being handed over to the representatives authorised by the Mysore State Government Employees' Association, Bangalore.

(viii) All Officers should extend full co-operation to the employees' representatives in conducting the Special Drive ;

(ix) All Taluka-level officers, who have their subordinate staff at places other than Taluka headquarters should arrange to get application forms duly filled in by such staff for being handed over to the employees' representatives or to the Regional Committee concerned, as may be convenient ; and

(x) The President, Mysore State Government Employees' Association may submit a report at the end of the third week of December 1972, indicating the progress achieved in the enrolment of members, as a result of the Special Drive.

2. Letter No. E3/1338/72 dated 19th June 1972 from the Inspector General of Prisons, Bangalore.

PREAMBLE—

In the G. O. quoted above *inter alia* it was directed that the Mill made cloth for supplying uniforms to Grade I and II Government employees should be drill cloth, the cost of which should not exceed Rs. 3.50 per metre. This was done on the basis of the cloth purchased in the Vidhana Soudha for supply to Grade I and II employees in the Secretariat. The Inspector-General of Prisons and the Director, N. C. C. have now explained that from the quotations they have obtained nowhere cloth is available for Rs. 3.50 per metre. Since there is likelihood of fluctuations in the price of cloth it is considered necessary to enhance the limit.

Expenditure on replacement of spare parts, renewal of tyres and tubes and petty repairs

OFFICIAL MEMORANDUM

No. FD 39 RCE 72, BANGALORE, DATED THE 30TH SEPTEMBER 1972.

In connection with the provision regarding the expenditure on replacement of spare parts, renewal of tyres and tubes and on petty repairs clarification has been sought on the following points:—

(i) Insistence on a Certificate to be issued by the Motor Vehicles Department with regard to the quantum of repairs the vehicle requires-this is said to cause avoidable delay in some cases, leading to the vehicle being "off-road" and the work of the Department being hampered.

(ii) Purchase of spare parts and other accessories like tyres and tubes which are manufactured by standard companies-whether this could be done without going through the time consuming process of calling for quotations etc.

(iii) Purchase of spare parts which are manufactured and which fit in an all types of vehicles, without calling for quotations etc.

(iv) Repairs to engines and such other portions of the vehicle which are not visible without opening and which repairs will involve additional expenditure beyond the original estimate.

2. The above points have been examined in detail. The following instructions in this regard are issued for the guidance of Departmental officers.

(i) The certificate from an Inspector of the Transport Department of a R. T. O. is necessary regarding the quantum of repairs as a general rule. Only in cases where the consultation with RTO or his inspector is likely to take time, the District level officer of the concerned Department may give a certificate about the essentiality and quantum of repairs required for the vehicle. This should be done on the basis of the report from the officer whose vehicle is to be repaired. A rough estimate of the probable cost should also be prepared by a local garage. Whenever such repairs are carried out on the authority of the certificate of Departmental officer, the subsequent repair should invariably be done after getting a certificate of the R. T. O.

(ii) At present only tyres and tubes have statutorily fixed prices. These and any other items having controlled rates may be purchased at the statutorily fixed prices. In respect of other items, the usual procedure of calling for quotations has to be followed.

(iii) In respect of items which are manufactured by several manufacturers, quotations have to be called for.

(iv) Any additional repairs which are found to be necessary may be carried out after receipt of quotations provided their cost does not exceed 25 per cent of the cost of repairs approved in the original quotations, within the powers delegated to the concerned officers. In case of very major repairs, for which sanction has been given by the competent authority, after full consideration, the justification for additional expenditure has to be subjected to careful scrutiny. Therefore, even in cases of repairs to engines referred to in para 1 (iv) above, competitive rates should be called for. However if the major repairs have been approved by a competent authority and in the course of repairs it is found that some additional items are necessary they may be undertaken provided the cost of these additional repairs will not exceed 10 per cent of the estimated cost of repairs in the original estimate, or Rs. 250 whichever is less.

3. It is directed that while ordering repairs to the vehicles the above clarifications should be kept in view and strictly complied with.

P. V. REVADI,
Finance Officer and Ex-Officio
Deputy Secretary to Government, PWE.

AN APPEAL

The Mysore Government Employees' Relief and Welfare Fund has been constituted by Government with effect from 1st April 1972 with a view to providing timely assistance to the employees or their dependents in times of need and in situations not fully covered by the normal schemes of welfare. The objects of the Fund are to :—

(a) give Rs. 1,000 to the family of a member in the event of his death while in service,

(b) provide relief by way of interest-free loan in cases of prolonged illness of the member or any member of his family,

(c) give loan for performance of marriage and other essential social and religious ceremonies.

(d) grant scholarships to the children of employees,

(e) undertake such other activities for promoting welfare of the employees.

2. The Fund is in the nature of a co-operative arrangement for distress relief to which the employees as well as Government contribute. Government have already sanctioned an initial grant of rupees one lakh for the purpose. But the progress registered in the enrolment of members and collection of subscriptions from them has not been as encouraging as expected. The realisation of the objectives of the Fund depends upon the number of members enlisted and the interest they evince in the management of the affairs of the Fund. A special drive by the employees' representatives for popularisation of the objectives of the Fund and for enrolment of members is, therefore, being launched during this month. The representatives of the Association will be contacting all officials, for enrolling them as members.

3. May I appeal to all employees to take advantage of the special drive and become members, so that they can help themselves and their brethren, by building up the Fund into a strong and useful institution ?

MANI NARAYANSWAMI,
Financial Commissioner and President,
Governing Body, Mysore Government
Employees' Relief and Welfare Fund.

OFFICIAL MEMORANDUM

No. GAD 74 SRR 72, BANGALORE, DATED THE 4TH OCTOBER 1972

It has been brought to the notice of Government that the candidates belonging to Backward Classes, Scheduled Castes and Scheduled Tribes are experiencing inconvenience in obtaining the Certificates that they belong to such class/caste. In certain cases authorities empowered to issue the certificates are reported to have asked candidates who approached them for certificates to go to some other authorities or have issued incomplete certificates. In certain other cases the Certificates issued were not in the form prescribed by Government. In the result, the certificates had to be rejected by the Public Service Commission in a number of cases.

2. An application form for a Backward Class Certificate and also a form of certificate to be issued by the Revenue Officer not below the rank of Tahasildar are given in the Annexure II to the G.O. No. GAD 42 SRR 69 I, dated 6th September 1969. Similarly, a specimen form of Caste Certificate to be issued to the candidates claiming to be belonging to Scheduled Castes and Scheduled Tribes is printed as Annexure III to the said Government Order which also indicates the various authorities who are empowered to issue the Caste Certificates after necessary verification. There should, therefore, be no difficulty in issuing the certificates after necessary verification.

3. In order to avoid unnecessary hardships to the candidates, the authorities empowered to issue the Backward Classes/Scheduled Castes/Scheduled Tribes Certificates may issue such certificates in the forms prescribed after necessary verification promptly to the candidates who apply for such certificates. Serious notice will be taken of any lapse in this behalf on the part of the concerned authorities.

Sri Chamarajendra Zoological Gardens, Mysore—Transfer of the Management and control from the Horticulture Department to the Mysore Forest Department—Sanctions—

PREAMBLE:—

The Zoo was started originally in Lalbagh. Later it was shifted to Mysore and came under palace management. Even while it was under palace management, it was being supervised by Gardens Department. The Chamarajendra Zoological Gardens in Mysore are known for their exemplary maintenance and introduction of rare species and animals imported from Foreign Countries. It has an area of 80 acres including the Kensington Gardens maintaining 235 species comprising of birds, mammals, reptiles and fish. The Zoo was treated as a separate unit under the private management of the palace previously till it was transferred to Government, since then it formed part of the Horticulture Department.

2. The Tukol Pay Commission while going through the staff structure of the Zoo Gardens made a recommendation that Zoo Gardens should be kept as a separate unit but to continue the administrative control under the Horticulture Department.

ORDER No. AF 198 AEG 65, BANGALORE, DATED THE 23RD SEPTEMBER 1972

The proposal to separate the Zoo and make it an independent Unit has been under the consideration of Government for some time past. The matter has been examined in detail having regard to the arrangements that exist in other states as well. Government consider that in the larger interest of the Zoo, it should be placed under the administrative control of the Forest Department, as it is

incongruous to keep it under the Horticulture Department. Government accordingly direct that the Sri Chamarajendra Zoological Gardens, Mysore, along with its staff, buildings, equipment, animals etc., should be transferred from the Mysore Horticulture Department to the Mysore Forest Department with effect from 1st October, 1972. The Director, Wild Life Preservation, Bangalore and the Director of Horticulture are requested to take immediate steps to effect the transfer on the appointed day.

3. Government are also pleased to direct that :—

Driving of Government Vehicles by persons other than drivers

OFFICIAL MEMORANDUM

No GAD 64 GED 72, BANGALORE, DATED THE 28TH OCTOBER 1972

The Mysore Government Motor Drivers' Central Association, Bangalore have brought to the notice of Government that Government vehicles are found to be driven many a times by persons other than the drivers appointed for the vehicles. The Association has also stated that this should be stopped.

Since drivers are appointed for each of the Government vehicles and since these drivers are also responsible for proper upkeep and maintenance of these vehicles, it is but proper that persons other than the drivers should not handle the vehicles. Even if it is the Officer of the Department or any other staff member, he is not 'authorised' so far as driving of the particular vehicle is concerned. Government therefore direct that such a procedure of driving Government vehicles by unauthorised persons should be stopped forthwith. If any officer/official or any person not authorised for the purpose is found driving the vehicle, he will be liable to disciplinary action, by the Head of the Department concerned. This will be without any prejudice to the legal action to be taken in case of accidents or other mishaps that may take place when such an unauthorised person is driving the vehicle.

In this connection, the Heads of Departments are authorised to get a small Notice printed in bold letters in pink colour, making it clear therein that driving the vehicle by unauthorised persons other than the driver is prohibited and that the unauthorised person is liable for disciplinary action. This notice as in the appended form should be pasted inside each Government vehicle in a conspicuous place to prevent the use of the vehicle by unauthorised persons. The notice may be got from the Government Press at Bangalore by sending an indent to the Press.

These instructions should be strictly followed by all the concerned officers.

R. J. REBELLO,
373 *Chief Secretary to Government*

WARNING

DRIVNG OF THIS VEHICLE BY A PERSON OTHER THAN THE DULY APPOINTED DRIVER OF THE VEHICLE IS STRICTLY PROHIBITED. IF ANY UNAUTHORISED PERSON IS FOUND DRIVING THE VEHICLE, HE WILL BE LIABLE FOR DISCIPLINARY ACTION AS WELL AS LEGAL ACTION.

Extraordinary leave to Work-Charged Establishment of P.W.D.—treatment of—

According to the provisions contained in para 73 III (2) of M.P.W.D. Code Volume I, the extraordinary leave taken by a person on the work-charged establishment in excess of three months should constitute a break in service. Subsequently, in Government's letter No. PWD 319 SPN 67, dated 10th August 1967 addressed to the Chief Engineer, Irrigation (South), Bangalore, it was clarified that L.W.A. taken by the members of the work charged establishment during the past three years of service does not constitute a break in service. As the clarification is in conflict with the main provision, which is also not in keeping with the provisions in MCSRs. it has been considered necessary to amend para 73 III (2) as below.

ORDER No. PWD 130 FOR 72, BANGALORE, DATED THE 4TH/27TH OCTOBER 1972.

Substitute for Para 73 III (2) of M.P.W.D. Code Volume I the following:

In view of the above amendment, the clarification issued in Sl. No. 1 of Government's letter No. PWD 319 SPN 67, dated 10th August 1967 is withdrawn.

PLANNING SECRETARIAT

Strengthening of Planning Machinery in the State

REF :—1. Letter from Secretary, Planning Commission No. PC(P)9/46/71-MIP, dated May 3, 1972

2. Letter from Joint Secretary, Planning Commission No. PC(P)9/46/71-MIP, dated August 14, 1972.

PREAMBLE :—

The Planning Commission in their letter cited 1 above have invited the attention of the State Government to the various tasks connected with the formulation of the Fifth Five Year Plan and suggested a model for strengthening the State Planning apparatus. This model involved, *inter alia*, the setting up of a State Planning Board with technical experts and strengthening the Planning Department with experts drawn from various disciplines and a functional reorganisation to look after perspective planning ; Monitoring ; Plan Information and Evaluation ; Project formulation ; Regional/District Planning ; and Plan Co-ordination.

In their letter cited 2 above, the Planning Commission have intimated that the Government of India would reimburse from 1972-73 an amount not exceeding two-thirds of the additional expenditure for strengthening of the planning machinery in the State, the balance being met by the State Government as a part of its Annual Plans in the remaining period of the Fourth Five Year Plan. This scheme will be a Central sector scheme administered by the Planning Commission.

The State Planning Board has been reconstituted under G. O. No. PD 2 PPB 72, dated 18th May, 1972 and the Board has now, among others, two experts in Economics. The State Planning Board which met on 28th July 1972 recommended that a small, permanent nucleus of experts should be available to it for planning studies after identification of problems, posing issues for consideration after study and evaluation and preparing a perspective plan of development. It also recommended that a competent expert should be made available for each district for preparing district plans.

Planning is increasingly becoming a complex process. More and more emphasis is being laid on perspective planning, spatial and district planning and ex-ante evaluation of projects. Government agree that the existing Secretariat/district machinery for planning will be unable to meet these needs and the deliberation of the State Planning Board will be effective and purposeful if it is supported by a nucleus of experts. It is also necessary to strengthen the planning units at the district level, if district perspective plans are to be prepared taking into account local needs and resources; only then these spatial plans can be integrated sectorally into a balanced, operational State Plan.

ORDER No. PD 38 PAD 72, BANGALORE, DATED THE 7TH OCTOBER 1972.

Government have given careful consideration to the suggestions of the Planning Commission and the State Planning Board for strengthening the Planning Machinery in the State and agree that the Planning apparatus at the State and District levels should be augmented by experts and supporting staff.

Sanction is accorded to the creation of the post of an Economic Adviser in the Planning Department in the pay scale of Rs. 1600—100—1800 with a special pay of Rs. 250 per month and of the posts of supporting technical and secretaria staff detailed in Annexure I and to their continuance till 31st March 1974. The functions of the Economic Adviser shall be as follows:—

1. To conduct/supervise systematic studies for the assessment of natural and human resources as well as for identification of factors retarding economic and social development.
2. To formulate for the consideration of the State Planning Board a long-term perspective plan for the development of the State including measures for progressive reduction of regional imbalances;
3. To advise in the preparation of Five Year Plan and the Annual Plans and to appraise the Plan programmes on the basis of progress reports and evaluation;
4. To advise the Finance Department on issues concerning financial resources;
5. To assist in formulation and ex-ante evaluation of projects for various departments of Government;
6. To provide guidance to district planning units; and
7. To advise on such other matters as may be required by Government.

The Bureau of Economics and Statistics and the Directorate of Evaluation and Manpower shall give all help and co-operation to the Economic Adviser in the discharge of his functions. The technical staff shall be selected and so organised as to be able to attend to perspective planning; monitoring, plan information and evaluation; project formulation; and regional/district planning.

Orders regarding sanction of staff for District Planning Units in each of the 19 districts in the State will issue separately.

Sanction is also accorded to incur during 1972-73 an expenditure not exceeding Rs. 1.65 lakhs as detailed in Annexure II on Economic Adviser's division. The expenditure in this regard is debitable to "19. General Administration, C. Secretariat and Attached Offices; J. Civil Secretariat, XIV State Planning Board and District Planning Committees".

This issues with the concurrence of the Finance Department *vide* their No. FD 395/Int./72, dated 28th September 1972.

By Order and in the name of the Governor of Mysore,

G. ASVATHANARAYAN,
Deputy Secretary to Government,
Planning Department.

(3) Letter No. DSW/ED-4/PR-186/72-73, dated 1st June 1972 from the Director of Social Welfare in Mysore, Bangalore.

PREAMBLE :—

In order to see that the boarders of the hostels run by the Department of Social Welfare would give better performance in the examinations and secure good result, sanction was accorded for introduction of uniform schematic pattern with certain facilities of coaching them and corresponding increase of staff for that purpose. This programme was undertaken as a 'Pilot Scheme' in eight hostels, two each one for boys and one for girls, at the Divisional Headquarters, as per the Government Order cited first above.

Consequently, there was an increase in the percentage of results when compared to those of previous years. Therefore, in the Government Order cited second above, the programme was extended to all the boys and girls hostels at the District Headquarters except the three at Bellary, Bijapur and Mysore.

As it is the intention of the Department to cover all the Departmental Hostels under this programme in a phased manner. Now the Director of Social Welfare has, in his letter cited third above, propose to extend this scheme to the hostels situated at Taluk Headquarters also.

ORDER No. SWD 126 SEW 72, BANGALORE, DATED THE 18/20TH OCTOBER 1972.

After examining the matter in all its aspects, sanction is hereby accorded to extend the said uniform schematic pattern to the three hostels at Bellary, Bijapur and Mysore as well as those situated at Taluk Headquarters as per Annexures I, II, III appended to this Order. In respect of the Taluk level hostels, the schematic pattern as sanctioned in the Government Orders cited first and second above will have slight modification as shown below :—

(*i*) there will not be appointment of senior wardens as in case of District level Hostels but the existing posts of Superintendents only will continue ;

(*ii*) these Superintendents will be trained under the scheme of training hostel Superintendents only in which case they need not undergo T.C.H. training separately ;

(*iii*) six Part-time Tutors will be appointed to each hostel at Taluk level for coaching the students—four Tutors at one each for each standard of Middle School at an honorarium of Rs. 60 per month each and to Tutors at one each for High School students at an honorarium of Rs. 75 per month each.

Sanction is also accorded for the creation of three posts of Senior Wardens in the scale of Rs. 175-10-275-15-350-EB-20-450, the qualification being trained graduates with B.Ed. for three district level hostels and one post of Junior Warden in the scale of Rs. 100-5-150-6-180-EB-10-220, the qualification being SSLC with T.C.H. training for the hostel at Bijapur only.

The expenditure on this account may be debited to the provision made under the head "39 Miscellaneous Social and Developmental Organisations—j-Development Schemes—(i) State Plan—C. Welfare of Backward Classes—I. Welfare of Scheduled Castes—Education—16. Pilot Projects for Hostels" in the Budget for 1972-73.

This Order is issued with the concurrence of the Finance Department *vide* its U.O. No. FD 2647/W2/72, dated 1st September 1972.
